Quarry Hill is our exciting, new campus in the cultural quarter of the city, boasting specialist childcare training facilities, digital technology labs, and industry standard studios and theatres.

The campus is perfectly situated for industry links to creative and healthcare partners, from the NHS to the BBC.

Here you can find:
- School of Creative Arts
- School of Childhood & Education
- School of Health Science & Social Care
- School of Public Services

Bird's eye view of the schools at Quarry Hill.

Our creative arts’ team designed the tree etchings on the side of the building.

There is plenty of green space around the new campus for students to relax inbetween studies.
Performances by creative arts students will be taking place throughout the year in our new theatre space.

Facilities include practical work rooms for School of Health, Care and Public Services.

Artist’s impression of the front of the building adjacent to York Road.

Panoramic view of Quarry Hill campus including Leeds College of Music and Leeds Playhouse.
Printworks is our second flagship campus, based in the South Bank area of Leeds. The historic listed building underwent a multi-million-pound renovation and now students benefit from cutting-edge hair and beauty studios, world-class kitchens, state-of-the-art engineering workspaces, digital labs and air-cabin!

**HERE YOU CAN FIND:**

- **SCHOOL OF BUSINESS**
- **SCHOOL OF DIGITAL & IT**
- **SCHOOL OF HAIR, BEAUTY & MEDIA MAKEUP**
- **SCHOOL OF ENGINEERING**
- **SCHOOL OF TRAVEL, FOOD & DRINK**

Our hair and beauty salons include industry standard facilities for students to practise treatments.

The School of Engineering also encompasses motor vehicle workshops.

Alongside world-class kitchens, the food department houses our unique butchery provision.

The School of Hair, Beauty and Media Makeup hair salon is an excellent place for transforming clients.
Printworks Kitchen & Bar combines creative food and exceptional drinks in an industrial-inspired setting within our Printworks Campus.

It offers a mix of mouth-watering contemporary food with diverse, locally sourced produce. Call 0113 284 6262 to make a reservation.

This impressive, newly refurbished salon offers professional hair and beauty services. The mid-century interior references back to the original use of the printworks building.

Book a treatment and relax, kick back, and enjoy a professional experience with high quality products in a unique spa environment.

Visit printworksleeds.co.uk for more information and to make a booking.
A short walk from the city centre, this campus is ideal for access to Leeds and all the experiences it has to offer students.

The campus has a seven storey, 60 room, energy efficient annexe that incorporates solar panels to generate electricity. The roof is covered with sedum plants to provide insulation and green space in the city.

**HERE YOU CAN FIND:**

SCHOOL OF APPLIED SCIENCE
SCHOOL OF SPORT SCIENCE & EXERCISE
SCHOOL OF ENTERPRISE, EMPLOYABILITY & EVENTS

Our Leeds Sixth Form building is also based on this site!

Sports students practise at nearby gym Firehouse Fitness alongside studying at Park Lane.

One of our School of Applied Science laboratories.

Beehive on the roof of Park Lane, looked after by School of Enterprise, Employability and Events.
Our campus at Temple Newsam is based on Home Farm, within acres of beautiful parkland and gardens which are overlooked by a stunning Tudor-Jacobean mansion.

This is where you will learn the practical elements of your course, whilst classroom sessions will take place at Printworks Campus.

Home Farm is the largest working rare breeds farm in Europe and nationally it’s one of only 16 approved by the Rare Breeds Survival Trust.

**HERE YOU CAN FIND:**

WHY CHOOSE COLLEGE?

Coming to college can be a big change, but it’s an exciting alternative to a school sixth form. Here’s why...

Not only are you treated like an adult, you will be given the freedom to develop confidence and independence, while being guided by friendly staff.

College can be a brilliant alternative route to university or employment, especially if you feel you need a bit of extra support. Many of our students use college as a means of gaining fantastic work and life experience as they prepare for their next important step.

We offer a range of vocational, hands-on qualifications, apprenticeships and A levels in loads of different subjects. You can even do a degree with us. We will also have T levels coming soon. Search T levels at gov.uk for more info.

Our staff have all worked in their specialist industry and we strive to teach core skills in environments that will prepare you for your chosen career.

We promise to treat you like a grown up, allow you to wear your own clothes (unless your course requires a uniform) and guarantee there is absolutely no “Sir” or “Miss” needed here!
Depending on your starting point, take a look at the various routes you can take; leading you to university, an apprenticeship or your dream job.

  - Vocational courses at level 3
  - Advanced apprenticeship
  - Foundation degree/top up
  - Higher apprenticeship

**YOUR DREAM CAREER**
ENTRY REQUIREMENTS

Don’t be put off if you don’t meet the exact entry requirements.

We will always consider your personal circumstances and help you find the course that’s best for you.

Each course will vary as detailed throughout this guide.

---

ENGLISH AND MATHS

Don’t worry if you haven’t got English and maths GCSE at grade 4. It will be built into your course alongside your subject. Some courses may need you to have English and maths GCSE at grade 5 due to the content. This will be explained when you speak to one of your department tutors.
The college offers extensive support to you before and during exams to ensure that you are getting the support you need.

If you have any questions, concerns or need to talk to someone, there are plenty of staff members within each department that you can speak with, such as coaching tutors.

**WHAT SUPPORT IS AVAILABLE DURING EXAMS?**

Leeds City College provides readers or scribes for students that require additional support during exams.

A reader is an individual who provides a verbal presentation of text to a student who is eligible for this service.

A scribe writes, types and records answers for exam questions. Where required, assistive technology, software and/or exams in alternative formats may be provided to accommodate your needs.

When the need for a reader or scribe occurs, a private room and/or extra time for testing may be given to you.

**ADJUSTMENTS FOR CANDIDATES WITH DISABILITIES AND LEARNING DIFFICULTIES**

There are also provisions made if you have a learning difficulty or disability and where required, provisions such as coloured or enlarged paper will be provided.

We also support students who require a detailed transition into college. For those holding an EHCP, our high needs transition team will ensure that any requirements are in place and monitored.

**FINANCIAL SUPPORT**

At college there are lots of ways we can support you with course-related costs, like travel passes, free lunches, college equipment, uniforms and much more.

To apply for extra support and to find out more, either visit leedscitycollege.ac.uk/extrasupport or speak to a member of staff.

*For more detailed information regarding support and student life go to page 152.*
Follow these simple steps for your journey to becoming a Leeds City College student.

APPLIED SCIENCE LEVEL 2

CAMPUS: Park Lane

ENTRY: Minimum 4 GCSEs at grade 3/2 including maths or English.

This discipline of science is an exciting and developing area of work that broadens your career opportunities.

Get practical and theoretical experience of working in a laboratory, along with a broad understanding of chemistry, physics and biology.

Applying this knowledge in your practical sessions will better prepare you for employment or your next steps in higher education.

COURSE THEMES:
- Principles of science
- Chemistry and our earth
- Energy and our universe
- Biology and our environment

APPLIED SCIENCE LEVEL 3

EXTENDED CERTIFICATE

CAMPUS: Park Lane

ENTRY: Good understanding of science at level 2, GCSE Science at 4 or a level 2 BTEC at Pass or above.

Develop your practical and theoretical knowledge further and prepare for university or employment in the different areas of science.

You will develop your practical scientific techniques and learn about working in the industry. You will also build on study skills for science such as communication, analytics, evaluation and research skills.

COURSE THEMES:
- Principles and applications of science
- Practical scientific procedures and techniques
- Scientific investigation skills
- Laboratory techniques and their applications

English and maths will be built into your course if your grades are below 4

Visit leedscitycollege.ac.uk/science
APPLIED SCIENCE
LEVEL 3
NATIONAL FOUNDATION DIPLOMA

CAMPUS: Park Lane

ENTRY: Good understanding of science at level 2, GCSE Science at 4 or a level 2 BTEC at Merit or above.

Additionally you need maths and English GCSE, grade 4 (C) or higher.

Develop your practical and theoretical knowledge further and prepare for university or employment in the different areas of science.

You will develop your practical scientific techniques and learn about working in the industry. You will also build on study skills for science such as communication, analytics, evaluation and research skills.

COURSE THEMES
- Principles and applications of science
- Practical scientific procedures and techniques
- Scientific investigation skills
- Laboratory techniques and their applications
- Investigative project
- Contemporary issues in science

A qualification in science can lead to a whole host of opportunities in health-related industries, the pharmaceutical industry, land-based industries, environmental work as well as sport and fitness.
**WE ARE SCIENTISTS. MICROBIOLOGISTS. CLINICAL RESEARCHERS. RADIOLOGISTS.**

**PHARMACIST**
As a pharmacist, you will dispense drugs and medicaments in hospitals and pharmacies, advising and participating in the development and testing of new drugs, compounds and therapies. Pharmacists counsel on the proper use and adverse effects of drugs and medicines.

**LABORATORY TECHNICIAN**
As a laboratory technician you will carry out routine laboratory tests and checks, and perform a variety of technical support functions. You will follow established or prescribed procedures and techniques to assist scientists with their research, development, analysis and testing. You will verify the physical, chemical and other characteristics of materials and products.

**BIOLOGICAL SCIENTIST**
As a biological scientist you will examine and investigate the morphology, structure, chemistry and physical characteristics of living organisms, including their inter-relationships, environments and diseases.

**OTHER CAREERS COULD INCLUDE:**
- BIOCHEMIST
- CLINICAL RESEARCHER
- DOCTOR
- MICROBIOLOGIST
- NURSE
- PHYSICIST
- PHARMACIST
- RADIOLOGIST
- SCIENCE ACADEMIC

Top paid roles are in biological science (£41,000), biomedical engineering (£44,000) and analytical chemicals (£38,000)

PERFORMING ARTS LEVEL 1
CAMPUS: Quarry Hill
ENTRY: 2 GCSEs at grade 2 or equivalent.

This course is designed to help you discover your talents, interests and strengths in a range of disciplines. Whether you’re a complete beginner to the performing arts world or you feel like you need to build your confidence as a person or as a performer, this is the right start. Take part in acting, singing and dancing workshops, create your own music and showcase two major productions during the year.

COURSE THEMES
- Preparing and presenting performing arts work
- Acting skills
- Dance skills
- Working in the creative arts industry
- Music production

ACTING LEVEL 2
CAMPUS: Quarry Hill
ENTRY: 4 GCSEs at grade 3 or equivalent.

On this course you will develop your acting skills through exploring various performance genres, different practitioners and texts. You will also extend your knowledge about working in the performing arts industry. From performing in a large scale Christmas pantomime to creating theatre from people’s stories, this year-long programme is packed to ensure that you have built your acting skills and are confident and ready for your next step.

COURSE THEMES
- Performing scripted plays
- Devising performance work
- Movement skills
- Performance in context
- Multimedia performance
- Exploring improvisation
- Performing arts industry
- Performance, preparation and production
- Individual showcase

DANCE LEVEL 2

CAMPUS: Quarry Hill

ENTRY: You need to be 16 or over and have a minimum of 4 GCSEs at grade 3. All applicants will attend an audition and interview at college.

On this course you will develop your technique, choreography, performance and dance theory skills by taking part in a range of classes, workshops and projects. You will be involved in two major performance pieces over the year where you will showcase your skills providing you with experience of working in a professional environment.

COURSE THEMES
- Contemporary techniques
- Exploring urban dance styles
- Jazz dance techniques
- Choreography
- Multimedia performance
- Individual showcase
- The performing arts industry

MUSICAL THEATRE PERFORMANCE LEVEL 2

CAMPUS: Quarry Hill

ENTRY: 4 GCSEs at grade 3 or equivalent. You will also take part in an interview and audition process.

On this course you will develop dance, singing and acting skills as well as knowledge about working in the performing arts industry. You will build techniques in all three areas looking at jazz and urban dance styles, creating the illusion of truth in acting and developing both a pop and a musical theatre singing voice.

We also develop your academic skills to ensure you are ready for the next level of your education or employment. You will also participate in work experience that will enhance your CV and give you first-hand valuable experience of the performing arts industry.

COURSE THEMES
- Exploring urban dance styles
- Individual showcase
- Preparation performance and production
- Acting skills
- Musical theatre skills
- Performance in context
- Performing scripted plays
PERFORMING ARTS
LEVEL 3

CAMPUS: Quarry Hill

ENTRY: 5 GCSEs 9-4 including English. A level 2 first diploma at Merit or above. An audition is compulsory for this course.

The art of performance continues to shift and evolve, making it a dynamic industry to work in. This course will give you the practical training necessary to develop your skills as a performer.

The course includes contemporary and urban dance, circus aerial, acrobatics, singing, physical theatre and acting. Through continued experience of external and internal performances, our aim is to develop you as a professional performer with a strong work ethic.

COURSE THEMES
- Circus aerial and acrobatics
- Contemporary and urban dance techniques
- Solo and ensemble singing techniques
- Contemporary and classical theatre
- Acting techniques
- Audition techniques
- Devising theatre skills
- Choreographing dance skills
- Academic skills in preparation for university, drama or dance school

ACTING
LEVEL 3

CAMPUS: Quarry Hill

ENTRY: 5 GCSEs 9-4 including English. A level 2 first diploma at Merit or above. An audition is compulsory for entrance on to this course, where you must perform a scripted monologue or a devised piece of around two minutes.

This course will build on your existing acting techniques by developing both vocal and physical skills in order to create characters and different roles within a performance. Explore a range of acting styles, such as naturalism, epic theatre, surrealism, physical theatre and drama improvisation.

You will participate in practical workshops, lectures and performance projects allowing you to develop skills in acting for camera and stage. We work closely with local and national theatre companies, providing opportunities to experience the different options available in the industry.

COURSE THEMES
- Investigating practitioners’ work
- Group performance workshop
- Performing arts in the community
- Developing skills and techniques for live performance
- Screen acting
- Improvisation

English and maths will be built into your course if your grades are below 4

Visit leedscitycollege.ac.uk/creativearts
DANCE
LEVEL 3

CAMPUS: Quarry Hill

ENTRY: A minimum of 5 GCSEs at grade 4 in relevant subjects, including English. Applicants will attend an interview and audition at college.

This course will develop your skills as a dancer, performer and choreographer. You will study a variety of styles, including contemporary, urban, jazz, ballet, tap and musical theatre.

You will have a number of opportunities to perform in-house, tour locally and work on large scale projects where we will look at current dance pieces and choreographers. The course will be enhanced by visiting practitioners and local dance companies.

COURSE THEMES
- Contemporary dance techniques
- Urban dance
- Jazz dance techniques
- Ballet, tap and musical theatre
- Choreography
- Developing skills and techniques for live performance
- Investigating practitioners’ work
- Performing arts in the community

MUSICAL THEATRE
LEVEL 3

CAMPUS: Quarry Hill

ENTRY: A minimum of 5 GCSEs at grade 4 in relevant subjects, including English or a first diploma with a Merit or Distinction grade. All applicants will be interviewed and attend a preliminary musical theatre workshop.

Explore musical theatre by looking at a range of performance techniques and skills including singing, acting and dance. You will participate in practical and theoretical workshops to expand your knowledge on practitioners, theories and methods.

The course offers a wide range of professional performance opportunities, including regular visits to local and national theatres. Our performing arts department is locally recognised for its ambition and energy resulting in a wide network of performance events, including Leeds Carnival, Elland Road Football stadium, Roundhouse Covent Garden in London, Kirkstall Abbey and Trinity Leeds.

COURSE THEMES
- Developing skills and techniques for live performance
- Musical theatre techniques
- Jazz, urban and tap dance
- Singing repertoire
- Acting styles
- Audition techniques
- Conditioning
- Performing arts in the community

"MICHAEL’S PASSION AND ENTHUSIASM FOR DANCE WAS EVIDENT IN HIS WORK AND WAS THE REASON WHY WE INVITED HIM TO BECOME PART OF THE TEAM. HE NOW TEACHES MUSICAL THEATRE AND STREET DANCE TO STUDENTS AGED 4-11 YEARS ACROSS LEEDS."

Michael Brooke-Horsfall | Flex Dance employer
TECHNICAL THEATRE (LIGHTING, SOUND & STAGE) LEVEL 3

CAMPUS: Quarry Hill
ENTRY: 5 GCSEs 9-4 including English, along with a successful interview.

You don’t need to be in front of an audience to stand out. Explore all aspects of backstage production roles, instilling the skills, knowledge, and professionalism needed to progress.

As a technical team member you will work closely with production managers, directors and designers to create a variety of performance spaces, whilst having the opportunity to manage a team in your preferred specialist area.

COURSE THEMES
- Production workshop
- Stage lighting operations
- Stage sound operations
- Technical stage operations
- Visual imagery
- Assistant stage management
- Deputy stage management
- Stage management
- Lighting design
- Sound design

THEATRE DESIGN AND PRODUCTION LEVEL 3

CAMPUS: Quarry Hill
ENTRY: 5 GCSEs 9-4 including English, along with a successful interview and portfolio of creative work.

Design costume, hair, makeup and props for performance. You will explore a wide range of products and techniques, developing your skills with real production experience of the backstage roles that are essential for the staging of a successful performance.

You will work closely with production managers, directors and designers to create a variety of performance spaces. We have strong links with theatres including West Yorkshire Playhouse, Opera North and Howard Assembly Rooms.

COURSE THEMES
- Makeup application skills and creative uses in performance
- Special effects makeup
- Stage costume design and creation
- Drawing development
- Production planning
- Stage wardrobe management
- Props creation
- Fantasy hair for performers
JOURNALISM
LEVEL 3

CAMPUS: Quarry Hill

ENTRY: 5 GCSEs at grade 4 or above or equivalent BTEC first diploma at Merit grade plus English language at grade 4 or above.

You will explore many aspects of journalism including broadcast, websites, photography, print and radio.

Develop your skills in carrying out revealing interviews, writing sparkling, professional copy for news, magazines and websites, shooting engaging factual programmes, recording radio news and designing eye-catching pages for magazines and websites.

COURSE THEMES
- News production in TV, radio and print
- Producing a media campaign across print, film and social media
- Factual programming on TV, radio, cinema and online
- Producing a website

MUSIC
LEVEL 3

CAMPUS: Quarry Hill

ENTRY: 4 GCSEs at grades 9-4 including English and maths. You will be required to attend a performance audition where you will be asked to play two contrasting pieces on your main instrument.

Develop your skills in your chosen genre whether that’s classical, jazz or pop. You will get a better understanding of a broad range of topics such as ensemble skills, performance techniques and composition.

You will learn a range of skills from video production and editing to photography and audio production, giving you the tools to succeed in the media industry.

Course themes
- Ensemble music performance
- Practical music theory and harmony
- Professional practice in the music industry
- Music skills development
- Composing promotion
MUSIC TECHNOLOGY
LEVEL 3
CAMPUS: Quarry Hill
ENTRY: 4 GCSEs at grade 4 or above including maths and English. You will be required to demonstrate that you have music technology experience.

Develop your understanding of core principles in music technology and production. The course will give you the technical skills in your preferred genre of either classical, jazz or pop.

You will explore areas such as live sound, sound recording, sequencing, mixing and mastering. As well as the practical elements, you will also learn how to use music software in a variety of contexts.

COURSE THEMES
- Live sound
- Studio recording techniques
- Music and sound for media
- Music technology project
- Music technology in context
- DAW production
- Music technology enterprise opportunities

TV AND FILM PRODUCTION
LEVEL 3
CAMPUS: Quarry Hill
ENTRY: 4 GCSEs at 9-4 or an equivalent BTEC in any subject. Does not have to include English and maths.

A practical course, which is the equivalent of two A levels, to give a grounding in the skills needed to produce digital film and video to industry standards.

You will learn from tutors and technical support staff with up-to-date industry experience and complete practical projects which you will submit as coursework. You will use DSLR cameras to film and Adobe Creative Suite software to edit and produce your media products.

COURSE THEMES
- Developing technologies in TV and film
- Opportunities to produce documentary, music video and promo videos
- Live TV studio production
- Project management

Keep up to date with what we’re up to over on twitter!
@CreativeArtsLCC
@GamesLCC
EXTENDED TV AND FILM PRODUCTION LEVEL 3

CAMPUS: Quarry Hill

ENTRY: 5 GCSEs at 9-4 including English.

Develop your practical skills in filmmaking alongside investigating media theory to gain a substantial qualification which is the equivalent of three A levels.

Designed to support further study of related degree courses in higher education, you will learn the practical aspects of filmmaking and TV production. Using DSLR cameras and film production equipment to produce professional products, you will develop editing and post-production skills using Adobe Creative Suite software.

COURSE THEMES

- Developing technologies in TV and film production
- Opportunities to produce documentary, music and promo videos
- Working with internal and external clients
- Project management

- Digital Media
ART AND DESIGN LEVEL 1

CAMPUS: Quarry Hill

ENTRY: 3 GCSEs at grade 1 or equivalent. You will be asked to bring in previous work that demonstrates your interest.

Get creative insight into the fundamental techniques of art and design, focusing on traditional and modern digital elements.

You will gain an understanding of art and design (drawing, painting, printmaking and sculpture), digital media techniques (animation and Adobe applications) giving you progression opportunities to level 2 in our art and design, photography and creative media courses.

COURSE THEMES
- Drawing
- Painting
- Printmaking
- Mixed media including digital and photographic processes
- 3D design
- Sculpture (3D fine art)

COMPUTER GAMES AND SKILLS LEVEL 1

CAMPUS: Quarry Hill

ENTRY: 2 GCSEs at grade 2 or equivalent. A genuine interest in games design, a commitment to completing set work at home and in class time. Independent study and meeting deadlines will also be required.

This course is an opportunity for you to explore some of the fundamental areas of games design. By the end of the course, you will have the skills to design both 2D and 3D objects and use a games engine.

You will develop your ideas through professional practice whilst acquiring both traditional and digital design-based skills. In addition, you will work towards producing appealing and exciting computer game products.

COURSE THEMES
- Media production skills
- Game engines 3D
- Digital 3D modelling
- Comic book illustration
- Digital graphics
- Employability skills

"IT WAS A FANTASTIC EXPERIENCE TO GET A STUDIO’S BRIEF AND HELP THEM GENERATE IDEAS. THE PROJECT DEVELOPED OUR CREATIVE SKILLS AND IT BOOSTED OUR CONFIDENCE TO KNOW THAT THE COMPANY EMBRACED OUR THOUGHTS."

Martell Edgar-Burke and Bailey Sunderland | Sleepy Brain Studios
DIGITAL MEDIA
LEVEL 1
CAMPUS: Quarry Hill
ENTRY: 2 GCSEs at grade 2 or equivalent and an interest in the subject.
You will explore the different sectors such as creative media, performing arts, music and art, craft and design, with a focus on digital creative media.
You will learn a range of skills from video production and editing to photography and audio production, giving you the tools to succeed in the media industry.
COURSE THEMES
- Learn how to use a DSLR camera
- Learn how to use Adobe Premiere to edit film
- Edit sound with Adobe Audition

ART AND DESIGN
LEVEL 2
CAMPUS: Quarry Hill
ENTRY: 4 GCSEs at grade 3 including English.
You will be asked to bring in previous work that demonstrates your interest in art and design.
Deepen your knowledge of art and design practice and theory. Build your art portfolio exploring traditional art techniques as well as investigating visual design leading into knowledge of the creative industries.
COURSE THEMES
- Contextual references in art and design
- 2D visual communication
- 3D visual communication
- Using ideas to explore, develop and produce art and design
- Building an art and design portfolio
- Working in the art and design industry
- Two specialist units: visual arts and graphic design briefs

English and maths will be built into your course if your grades are below 4
Visit leedscitycollege.ac.uk/creativearts
COMPUTER GAMES
LEVEL 2
CAMPUS: Quarry Hill
ENTRY: 4 GCSEs at grade 3 or above.

Designing computer games has grown in popularity along with new advances in technology. Programmers, artists, writers and animators come together to create exciting and innovative work.

You will gain the vital knowledge and practical skills you need to succeed in today's computer games industry. You will also get the opportunity to understand the games making process and produce your own.

COURSE THEMES
- Digital media sectors and audiences
- Planning and pitching a digital media product
- Digital audio production
- Digital games production
- Media industry in context
- Digital editing for moving image
- Graphic design/animation for digital media
- Digital games testing

DIGITAL MEDIA
LEVEL 2
CAMPUS: Quarry Hill
ENTRY: 4 GCSEs at grade 3 or above.

This course gives you technical and writing skills and the confidence to develop your ideas which can lead to a rewarding career in the media industry.

You will learn the fundamentals in learning how to plan and produce professional films, recording and editing audio, taking photos and writing professional copy.

COURSE THEMES
- Video editing using Adobe Premiere
- Audio editing using Adobe Audition
- Working in a team to create your own media production
- Learning how to use a DSLR camera
GRAPHIC DESIGN AND PHOTOGRAPHY LEVEL 2

CAMPUS: Quarry Hill

ENTRY: 4 GCSEs at grade 3 or above including English. You will be asked to bring in previous work, demonstrating your experience and interest in photography or graphic design.

Develop your creativity through understanding the potential of art, graphic design and photography.

In addition to developing your traditional art skills you will use industry standard hardware and software to explore digital techniques including: digital illustration, image manipulation, branding, page layout and photography.

COURSE THEMES
- Contextual references in art and design
- 2D and 3D design briefs
- Building an art and design portfolio
- Working in the art, graphics and photography industry
- Working with graphic design briefs
- Working with photography briefs

ART AND DESIGN LEVEL 3

CAMPUS: Quarry Hill

ENTRY: A minimum of 5 GCSEs at grade 4 or above, including English. You will be required to present your own portfolio during interview.

This course allows you to strengthen your creative skills using a variety of materials and techniques. There are two pathway options available to choose from, either textiles or art and design.

You will have the opportunity to explore a wide range of art processes, such as painting, printmaking, drawing, textiles and sculpture allowing you to focus on your own personal practice and prepare yourself for a range of progression opportunities.

During the second year, you will be provided with an individual studio space to develop the ability to work more independently.

COURSE THEMES
- Visual recording and communication
- Critical and contextual studies in art and design
- Materials, techniques and processes in art and design
- Contemporary fine art/textile practice
- Developing an art and design portfolio
- Curating an exhibition

Keep up to date with what we’re up to over on twitter!

@CreativeArtsLCC
@GamesLCC

VISUAL AND DIGITAL
COMPUTER GAMES
LEVEL 3

CAMPUS: Quarry Hill

ENTRY: 5 GCSEs at 4 or above including English Language or a first diploma (level 2) at Merit or above (including GCSE English Language at 4 or above or Level 2 Functional Skill in English).

The two pathways we offer are Computer Games Development and Computer Games Design.

In games development, you will learn about the different areas ranging from computer programming (coding) and computer hardware, to graphics and web development. You will also develop your skills in software and programming language.

In the games design course you will be able to turn the game ideas you already have into fully realised characters, engaging stories and playable game levels.

COURSE THEMES (GAMES DEVELOPMENT)
- Games development:
- Digital computer industry
- Games development (Unreal, Unity and Stencyl)
- Programming/coding (C++, JavaScript, Visual Basic)
- 3D modelling and animation (3DS Max, Maya)
- Game design
- Game story development
- Web technologies (HTML, CSS, PHP and Adobe Animate)
- Digital graphics (Adobe Creative Suite)

COURSE THEMES (GAME DESIGN)
- Game story and level design
- Game mechanics
- Concept art and digital graphics
- 3D Modelling and animation
- Character and environment design
- Games audio
- Finding a career in the games industry

WEB AND APP DEVELOPMENT
LEVEL 3

CAMPUS: Quarry Hill

ENTRY: A minimum of 5 GCSEs at grade 4 or above including English and ideally maths or equivalent (Level 2 Functional Skills), NVQ2 or level 2 diploma at Merit grade with English and maths at minimum grade 4 or equivalent (e.g., Level 2 in Functional Skills).

Web and App Development is the first course in the Yorkshire region to combine mobile and web technologies with desktop applications development. The two year course is designed to meet demand for technical and creative experts.

Learners will develop an understanding and skills in using various software tools to design and develop mobile and desktop applications. This includes Adobe Photoshop, Illustrator, Animate, Android Studio, Unreal Engine, PHP, JavaScript, HTML, CSS and C++.

The course will provide assessment opportunities in relation to work-related/employer-led work. You will explore this growing industry by designing and developing both desktop and mobile-based apps and games. The course will increase your knowledge of mobile-based apps and games, web based applications, manipulating graphics, programming and designing user interfaces for digital marketing and businesses.

COURSE THEMES
- Website development
- Mobile apps development
- Computer games development
- Digital 2D and 3D graphics
- Digital animation and effects
- The Internet of Things
- Creating systems to manage information
- Using social media in business
- Programming
- Project management
GRAPHIC DESIGN
LEVEL 3

CAMPUS: Quarry Hill

ENTRY: A minimum of 5 GCSEs at grade 4 or above, including English. You will be required to present your own portfolio during interview.

Think graphic design, think advertising, marketing, branding, web and magazine design, display and illustration. This course introduces you to a broad spectrum of opportunities and will help you to explore your digital and creative skills in a commercial direction.

As well as developing your professional graphic design skills using Adobe Creative Suite, you will also explore traditional techniques such as printing, drawing and painting to prepare a highly personalised portfolio, shown as part of the end of year exhibition in your final year.

COURSE THEMES
- Working on professional client briefs
- Presentation skills
- Theory and history of graphic design
- The creative thinking process
- Materials, techniques and processes (digital and traditional)
- Creating final pieces to industry standard

PHOTOGRAPHY
LEVEL 3

CAMPUS: Quarry Hill

ENTRY: A minimum of 5 GCSEs at grade 4 or equivalent including English or maths. You will be required to complete a photography task and present a portfolio of your work.

Whether you see yourself in the studio, setting up lighting for a fashion shoot or out on location photographing a documentary, this course will help you explore digital and traditional processes from both an artistic and technical perspective.

It will prepare you for the professional world of photography and the various pathways available as well as introducing you to the potential of applying your photographic work to video and design.

COURSE THEMES
- Theory and history of photography
- Digital and traditional materials, techniques and processes in photography (including darkroom processing films)
- Developing a photography portfolio
- Managing a professional client brief
- Developing and realising creative intentions
- Studio photography
- Location photography
- Digital image capture and editing
- Narrative image making
WE ARE ARTISTS. PERFORMERS. JOURNALISTS. PHOTOGRAPHERS.

GAMES DEVELOPER
As a games developer you will work within the industry designing, developing, testing and implementing systems used for games over various platforms.

GRAPHIC DESIGNER
As a graphic designer you will use illustrative, sound, visual and multimedia techniques to convey a variety of messages, depending on the purpose of your brief. It may be for information, entertainment, advertising, or publicity purposes.

JOURNALIST
As a journalist, you will research, conduct interviews, write and deliver stories that are in the public interest. Working in a fast-paced newsroom, you could specialise in an area of interest, in print or broadcast.

CHOREOGRAPHER
As a choreographer, you will research, prepare and teach a range of dance styles. As well as theatre plays and performances, choreographers can be employed on film and TV productions that involve dance routines.

PHOTOGRAPHER
As a photographer you will operate and assist with still cameras to record, manipulate and project images for entertainment, cultural, commercial and industrial purposes.

OTHER CAREERS COULD INCLUDE:
ACTOR
ARTIST
COSTUME DESIGNER
PP DEVELOPER
GAMES DEVELOPER
DESIGNER
GALLERY OWNER

In the Leeds city region, the number of jobs in advertising and media is 40% higher than anywhere else in the country.

COMPUTER SCIENCE
LEVEL 1

CAMPUS: Printworks

ENTRY: Minimum 2 GCSEs at grades 3/4 and literacy skills at entry level 2 or above. If you haven’t achieved GCSE English and maths to grade 4/5 then you will study these alongside your programme.

Develop the essential skills to take the first step towards your career.

Gain essential software and hardware skills on a course which combines IT with business practices. Learn about software and hardware in computing technologies to support devices that everyone is using.

COURSE THEMES
- Being organised
- Developing a personal progression plan
- Working with others
- Researching a topic
- Developing digital information using IT
- Using digital communication technologies
- Creating a spreadsheet to solve problems
- Creating a website
- Creating a computer program
- Developing a digital product

COMPUTER SCIENCE AND NETWORKING
LEVEL 2

CAMPUS: Printworks

ENTRY: Minimum of 4 GCSEs: 3 GCSEs at grade 4 or higher, 1 GCSE at grade 5 or higher in either English or maths (or equivalent). You may be required to study English and maths as part of your course.

Interested in website development? Programming your own software? Graphic design or networking? This course will develop your practical skills in all these areas and give you the understanding to progress on to a career in the computing sector.

COURSE THEMES
- Creating a digital portfolio: showcase all your work
- Creating digital graphics
- Networking skills
- Website creation
- Software programming
- Database design and development: using Microsoft Access
- The online world (external assessment)
- Technology systems (external assessment)

English and maths will be built into your course if your grades are below 4.

Visit leedscitycollege.ac.uk/digital
IT
LEVEL 2
CAMPUS: Printworks
ENTRY: 4 GCSEs grade 3 including maths and English.

Learn a variety of skills from web development to animation, and be equipped to work in IT.

IT is essential for businesses to run and is integral to every industry. You will learn about multimedia, types of technological systems, platforms and database management.

COURSE THEMES
- Online world
- Technology systems
- Spreadsheets
- Digital graphics/animation
- Databases
- A digital portfolio
- Website development
- Multimedia

COMPUTER SCIENCE
LEVEL 3
EXTENDED CERTIFICATE
CAMPUS: Printworks
ENTRY: 5 GCSEs at grade 4 or higher including maths and English

Get equipped with the skills that are fast becoming essential in the computing industry.

Leeds is a digital hub for the north of England, and there are surplus job opportunities in this sector. This course develops and enhances computer science skills that will equip you to apply for a variety of roles.

COURSE THEMES
- IT systems, security and encryption
- Principles of computer science
- Software design and development project
- Business applications of social media
- Website content design and implementation
- Mobile applications development
- Human-computer interaction

You will be equipped with the knowledge you need to thrive in this growing industry, in our state-of-the-art digital facilities.
COMPUTER SCIENCE
LEVEL 3

FOUNDATION DIPLOMA

CAMPUS: Printworks

ENTRY: 5 GCSEs at grade 4 or higher including maths and English.

Work on computer programming, making software for the latest games, websites, and programmes.

You will be introduced to the fundamentals of computer science, enabling you to sample computer science, networking and software development.

COURSE THEMES
- Fundamentals of computer systems
- Human-computer interaction
- Computer games development
- Principles of computer science
- Software design and development
- IT systems, security and encryption
- Business applications of social media

IT
LEVEL 3

EXTENDED CERTIFICATE

CAMPUS: Printworks

ENTRY: 4 GCSEs grade 4 including maths and English.

This course will give you skills to utilise IT in your future employment. Go from user to creator and take your social media knowledge further, from learning how to schedule social media posts and creating systems to managing information.

COURSE THEMES
- Information technology systems
- Creating systems to manage information
- Using social media in business
- Website development

English and maths will be built into your course if your grades are below 4

Visit leedscitycollege.ac.uk/digital
IT
LEVEL 3
FOUNDATION DIPLOMA
CAMPUS: Printworks
ENTRY: 5 GCSEs grade 4 or higher including maths and English.

Interested in programming, web design, IT systems or social media in business?
You’ll gain the equivalent of one and a half A levels, which combined with the extended diploma, will then give you the equivalent of three A levels with enough UCAS points to go to university.

COURSE THEMES
- Information technology systems
- Creating systems to manage information
- Using social media in business
- Programming
- Data modelling
- Website development

SOFTWARE DEVELOPMENT
LEVEL 3
FOUNDATION DIPLOMA
CAMPUS: Printworks
ENTRY: 5 GCSEs grade 4 or higher including maths and English.

Want to work in computer programming and make software for websites, and programs used within the computing industry?
You will be introduced to the fundamentals of computer science. It enables you to sample both computer science, networking and software development and you will then be able to specialise in either of these disciplines in your second year.

COURSE THEMES
- Fundamentals of computer systems
- Human computer interaction
- Computer games development
- Principles of computer science
- Software design and development
- IT systems security and encryption
- Business applications of social media

You will be equipped with the knowledge you need to thrive in this growing industry, in our state-of-the-art digital facilities.
WE ARE CODERS. ETHICAL HACKERS. SOFTWARE DEVELOPERS. NETWORK ENGINEERS. MOBILE APP DEVELOPERS.

PROGRAMMER/SOFTWARE DEVELOPER
As a programmer or software developer you will design, develop, test, implement and maintain software systems in order to meet the specifications and business objectives of the information system. You will also design and develop specialist software.

WEB DESIGNER
As a web designer you will design, develop and maintain either your organisation's website or a client's website ensuring that requirements are met.

NETWORKING ENGINEER
As a networking engineer you will be responsible for implementing, maintaining, supporting, developing and, in some cases, designing communication networks within an organisation or between organisations.

OTHER CAREERS COULD INCLUDE:
- COMPUTER SYSTEMS ANALYST
- WEB DEVELOPER
- COMPUTER SYSTEMS ENGINEER
- NETWORK SYSTEMS ADMINISTRATOR
- DATABASE ADMINISTRATOR
- BUSINESS INTELLIGENCE ANALYST
- COMPUTER PROGRAMMER
- CYBER SECURITY PROFESSIONAL
"THE COMPUTER SCIENCE TEAM ARE KNOWLEDGEABLE AND VERY SUPPORTIVE."

ENGINEERING TECHNOLOGY
LEVEL 1
CAMPUS: Printworks
ENTRY: 5 GCSEs at grade 3 including maths and English.

Learn the practical skills to start your career in engineering.

You will develop practical skills to progress on to a career in the engineering industry, from fabrication to maths in engineering, discover the right pathway for you.

COURSE THEMES
- Fabrication
- Welding
- Mechanical engineering
- Electrical engineering
- Maths for engineering
- Health and safety

ELECTRICAL INSTALLATION
LEVEL 2
CAMPUS: Printworks
ENTRY: A minimum of 5 GCSEs grade 4 or higher, including maths and English.
Satisfactory school report to include attendance and attitude grading along with a successful college admissions interview.

Gain practical skills and knowledge in electrical installation for employment in the trade.

Learn a practical trade that will serve you well. This will give you the knowledge and skills to progress on to a level 3 programme or advanced apprenticeship.

COURSE THEMES
- Electrical principles
- Electrical installation
- Health and safety
- Practical workshop
- Communications

With bespoke facilities to hone your craft, modern classrooms and a passionate team of tutors with industry specialisms, the engineering department is the perfect place to start your career.
ELECTRO-MECHANICAL MAINTENANCE ENGINEERING TECHNOLOGY
LEVEL 2

CAMPUS: Printworks

ENTRY: 5 GCSEs with 4 at grade 3 or higher. One in GCSE Maths at grade 4 or higher. Alternatively you could have successfully completed the Engineering Technology Level 1 Diploma.

Get involved in the installation and maintenance of engineering systems.

Take the next steps towards a well paid and rewarding career in mechanical engineering.

You will gain a wide variety of skills from health and safety to turning and milling.

COURSE THEMES
- Health and safety
- Environmental awareness
- Engineering principles

THREE OPTIONAL UNITS:
- Turning and milling
- Bench fitting
- Electrical engineering

ENGINEERING ACADEMIC ROUTE LEVEL 2

CAMPUS: Printworks

ENTRY: 4 GCSEs at grade 5 including maths.

This course provides a pathway to university or an advanced apprenticeship.

Become an advanced engineer; get equipped with the skills to study engineering at a higher level. Sharpen your mathematical and scientific skills to a level used in the industry.

COURSE THEMES
- Health and safety
- Maths for engineering
- Science for engineering
- Engineering principles

English and maths will be built into your course if your grades are below 4

Visit leedscitycollege.ac.uk/engineering
FABRICATION AND WELDING ENGINEERING TECHNOLOGY LEVEL 2

CAMPUS: Printworks

ENTRY: 5 GCSEs, 4 at grade 3 or above. One in GCSE Maths at grade 4 or higher. Alternatively you could have successfully completed the Engineering Technology Diploma Level 1.

Take a step towards specialising in fabrication and welding.

Learn one of the most important construction techniques used in engineering, from structural steelwork to steel fabrication and sheet metal work. You will gain the skills to read drawings for component productions, and assemble test pieces ready for welding.

MANDATORY UNITS:
- Health and safety
- Environmental awareness
- Engineering principles

THREE OPTIONAL UNITS:
- Fabrication
- Welding
- Thermal cutting

ENGINEERING ACADEMIC ROUTE LEVEL 3

CAMPUS: Printworks

ENTRY: 5 GCSEs, 4 at grade 5. Grade 6 in maths. Alternatively you could have successfully completed our Academic Route Level 2 course.

This course provides a pathway to university or an advanced apprenticeship.

Building on the scientific and mathematical skills developed at level 2, this course prepares you for higher level study at university. This course will equip you with the theory, academic skills and engineering know-how. You will complete a foundation diploma in your first year and an extended diploma (top-up) in your second year.

COURSE THEMES
- Health and safety
- Maths for engineering
- Science for engineering
- Engineering principles
- Electrical principles
- Bespoke project

YOUR COURSE WILL BE SPLIT:
- Year 1: Engineering Foundation Diploma
- Year 2: Engineering Extended Diploma (this is a top-up course)

For the extended diploma you will undertake a further six modules in various engineering disciplines.
FABRICATION AND WELDING ENGINEERING TECHNOLOGY
LEVEL 3

CAMPUS: Printworks
ENTRY: Successful completion of a relevant level 2 qualification.

Build on your level 2 knowledge on this highly advanced course with a more academic focus.

Develop higher level skills in areas such as pattern development and fabrication activities management. You will learn from a more academic approach and gain the experience to progress on to an apprenticeship or employment in the industry.

MANDATORY UNITS:
- Health and safety
- Environmental awareness

SIX OPTIONAL UNITS:
- Plate work
- Mig welding
- Tig welding
- MMA welding
- Pattern development
- Managing fabrication activities

MECHANICAL ENGINEERING TECHNOLOGY
LEVEL 3

CAMPUS: Printworks
ENTRY: Successful completion of a level 2 programme.

Enhance your level 2 skills and focus your pathway on mechanical engineering.

Deepen your knowledge of areas such as engineering inspection, quality control, milling and turning. Learn new skills in 3D Parametric Modelling and Computer Numerical Control. You will focus on practical skills and knowledge, taking a more academic approach to mechanical engineering.

COURSE THEMES
- Health and safety
- Environmental awareness

SIX OPTIONAL UNITS:
- Milling
- Turning
- Mechanical principles
- CAD
- CNC
- Design

“IT’S A FANTASTIC COURSE AND I HAVE GAINED A LOT OF RELEVANT SKILLS AND KNOWLEDGE. I AM EXTREMELY HAPPY WITH THE PROGRESS I HAVE MADE AND MY TUTORS HAVE REALLY SUPPORTED ME.”

Sarang Namath | Engineering Technology
Electromechanical Maintenance
ELECTRO MECHANICAL MAINTENANCE ENGINEERING TECHNOLOGY LEVEL 3
CAMPUS: Printworks
ENTRY: 5 GCSEs, 4 at grade 3 or higher. One in GCSE Maths at grade 4 or above. Alternatively you could have successfully completed the level 2 programme.

Develop the higher level skills involved in the installation and maintenance of engineering systems.

Enhance your skills further for the electro-mechanical sectors by developing your level 2 knowledge and studying new units such as fluid power and electrical principles.

MANDATORY UNITS:
- Health and safety
- Environmental awareness

SIX OPTIONAL UNITS:
- Maintenance principles
- Mechanical maintenance
- Electrical engineering
- Electrical principles
- CAD
- Fluid power

ELECTRICAL INSTALLATION (BUILDINGS & STRUCTURES) LEVEL 3
CAMPUS: Printworks
ENTRY: Minimum of 5 GCSEs at grade 4 or above, including maths and English. Alternatively you may have Functional Skills level 2 in maths and English, or a relevant level 2 vocational qualification along with GCSEs.

Get to grips with the advanced principles of electrical installation, from electrical science to health and safety.

The qualification covers many areas within electro-technical technology such as principles of electrical science, electrical installation technology and health and safety within building services engineering. You will also study environmental systems, science and electrical principles, installation and design, testing, fault finding and career progression studies.

COURSE THEMES
- Environmental systems
- Science and electrical principles
- Installation and design
- Testing and fault finding
- Career progression studies
- Health and safety

With bespoke facilities to hone your craft, modern classrooms and a passionate team of tutors with industry specialisms, the engineering department is the perfect place to start your career.

MULTI-SKILL
LEVEL 1

CAMPUS: Printworks

ENTRY: Entry requirements are at least 5 GCSEs at grade 3 including maths and English.

Develop your general understanding of the automotive industry to help choose your future pathway.

This introductory course provides a general understanding of the automotive industry to make informed choices about suitable pathways. You could go on to study motor vehicle mechanics, vehicle body repair and vehicle paint refinishing.

COURSE THEMES
- Health and safety for motor vehicle studies
- Engineering equipment and materials
- Engine liquid cooling and lubrication systems
- Vehicle braking systems
- Vehicle inspections
- Vehicle body repair
- Vehicle paint refinishing
- Vehicle valeting

ACCIDENT REPAIR
PAINT PRINCIPLES
LEVEL 2

CAMPUS: Printworks

ENTRY: A minimum of GCSE grade 4 or Functional Skills at level 2 in maths and English.

Get the essential knowledge and practical skills in paint preparation and primer paint application.

You will work at a practical and theoretical level whilst studying in our modern workshops. Learn skills in the preparation and application of primers and paint finishes on motor vehicles. Gain understanding of the use of fillers and foundation materials, repairing minor paint defects and understanding the importance of health and safety.

COURSE THEMES
- Health and safety
- Tools and equipment used in vehicle refinishing
- Applying fillers and foundation materials
- Preparing metal and pre-painted surfaces
- Repairing minor paint defects

“I HAVE CEREBRAL PALSY BUT I DON’T LET THIS HOLD ME BACK. I GET TO SPEND EVERY DAY DOING SOMETHING I LOVE AND LEARNING MORE ABOUT IT.”

Nathan Hodgson | Motor Vehicle Maintenance and Repair
LIGHT VEHICLE MAINTENANCE AND REPAIR PRINCIPLES LEVEL 2

CAMPUS: Printworks
ENTRY: 5 GCSEs grade 3 including maths, English and science.

Carry out an in depth study of vehicle systems and prepare your skills for further study or employment.

You’ll develop specialist knowledge and skills required by the automotive sector. Build your experience of maintenance and repair by working on components from engine systems, chassis systems and transmissions.

COURSE THEMES
- Engine systems
- Transmission
- Chassis systems: steering, suspension and brakes
- Vehicle electrical systems
- Routine service and maintenance
- Health and safety in the automotive environment
- Tools, equipment and materials
- Job roles within the automotive sector

LIGHT VEHICLE FITTING PRINCIPLES LEVEL 2

CAMPUS: Printworks
ENTRY: 5 GCSEs at grade 3 to include, maths, English and science.

Gain the skills for fast fit related work or progression to Light Vehicle Maintenance and Repair Principles Level 3.

You will develop knowledge of operating principles and practical skills including non-complex diagnosis methods. In our industry standard garage you will learn how to inspect and replace various components in the course themes.

COURSE THEMES
- High performance tyres
- Exhaust components
- Batteries and related components
- Four wheel alignment
- Health and safety in the automotive environment
- Tools, equipment and materials
- Job roles within the automotive sector

English and maths will be built into your course if your grades are below 4

Visit leedscitycollege.ac.uk/engineering
LIGHT VEHICLE MAINTENANCE AND REPAIR PRINCIPLES LEVEL 3

CAMPUS: Printworks

ENTRY: Successful completion of the Light Vehicle Maintenance and Repair Level 2 programme. 5 GCSEs at grade 3, including maths, English, and science.

This advanced course is a Technical Level (T level) qualification. You will deepen your understanding of diagnosis, rectification and testing of faults in motor vehicles; building on knowledge and skills gained at level 2. Learn the specialist technical knowledge and skills necessary for employment in the motor vehicle industry.

COURSE THEMES

- Skills and knowledge in diagnosing and rectifying
- Electrical faults
- Light vehicle engine faults
- Light vehicle transmission and drive line faults
- Light vehicle chassis system faults
- Health and safety in the automotive environment
- Tools, equipment and materials
- Job roles within the automotive sector

Learn a trade to the highest standard in our simulated vehicle workshop at Printworks Campus
WE ARE ENGINEERS. WELDERS. MECHANICS. ELECTRICIANS.

VEHICLE TECHNICIAN
As a vehicle technician you will repair and service the mechanical parts and electrical/electronic circuitry and components of cars, lorries, buses, motorcycles and other motor vehicles. You will also repair and service auto air-conditioning systems.

VEHICLE BODY REPAIRER
As a vehicle body repairer you will remove, repair and replace damaged panels of the outside body of road vehicles, including cars, lorries, buses and motorcycles.

ELECTRICAL ENGINEER
Electrical engineers design, develop and maintain electrical control systems to specifications. This could be in a variety of sectors, including the building industry, transport, manufacturing or power.

VEHICLE PAINT TECHNICIAN
As a vehicle paint technician you will use spray equipment to apply paint and other protective or decorative materials to the bodywork of motor vehicles. This can include car wrapping and decals.

OTHER CAREERS COULD INCLUDE:
MECHANIC
GARAGE OWNER
PANEL BEATER
CLASSIC CAR RESTORER
WRAP SPECIALIST
AUTOMOTIVE ELECTRONIC SPECIALIST
AUTOMOTIVE SALES

Higher earners include mechanical engineers (£47,000), electronic engineers (£45,000) and engineering technicians (£36,000)

CAMPUS: Park Lane

ENTRY: 2 GCSEs at grade 2 or equivalent. Successful interview.

Get involved and work on creative ideas for projects, while working alongside others in the community.

If you enjoy subjects such as art, photography, film or music, you will be able to develop your interests into valuable skills for future study or employment. Through working on community arts projects with a practical focus, you will learn how to work with colleagues and the importance of teamwork to meet deadlines, as well as gaining valuable skills, such as CV writing.

COURSE THEMES
- Creating ideas for projects
- Preparing and running projects
- Working in the community
- Marketing your events

COMMUNITY ARTS, PROJECTS, AND EVENTS
LEVEL 2

CAMPUS: Park Lane

ENTRY: 3 GCSEs at grade 3 or equivalent. Successful interview.

Build on your existing knowledge, by getting involved with projects, and working alongside others.

If you enjoy subjects such as art, photography, film or music, you will be able to develop your interests into valuable skills for future study or employment. Through working on community arts projects with a practical focus, you will learn how to work with colleagues and the importance of teamwork to meet deadlines, as well as gaining valuable skills, such as CV writing.

COURSE THEMES
- Creating ideas for projects
- Preparing and running projects
- Working in the community
- Marketing your events

English and maths will be built into your course if your grades are below 4.

Visit leedscitycollege.ac.uk/enterprise
EMPLOYABILITY AND ENTERPRISE LEVEL 2
EXTENDED CERTIFICATE
CAMPUS: Park Lane
ENTRY: 3 GCSEs at grade 3 or equivalent. A keen interest in employability and enterprise. Successful interview.

Whether you want to study or gain employment, you will expand your enterprise and employability skills to help you take those next steps.

You will develop a range of employability and enterprise skills, which will help you decide where you want to go with your future career or study. Learn more about working in a team and writing your CV. You will have the opportunity to produce a product, plan and run an enterprise. You will also gain valuable work experience by undertaking a work placement.

COURSE THEMES
- Study different areas of enterprise
- Plan and run your own enterprise
- Work experience
- Volunteering
- CV writing
- Workskills Extended Certificate Level 2

CUSTOMER SERVICE AND SALES LEVEL 2
EXTENDED CERTIFICATE
CAMPUS: Park Lane
ENTRY: 3 GCSEs at grade 3 or equivalent. A keen interest in employability and enterprise. Successful interview.

Learn the skills needed to be at the heart of one of the fastest growing industries in the Yorkshire region.

Meeting with new people in professional contexts will expand your knowledge and experience of customer service. You will show off your new skills and gain practical experience of dealing with customers on your work placement. This is combined with employability skills to help you with the next steps into an apprenticeship or employment.

COURSE THEMES
- Planning and participating in work experience
- Customer service principles
- Understanding customer service delivery
- Communicating with customers
- Principles of direct selling
- Understanding how to handle customer problems
- Understanding personal development

These courses offer you the opportunity to work on live projects, gaining hands-on experience, increasing your employability skills and supporting your progression.
EVENTS AND MARKETING ASSISTANT LEVEL 2
CERTIFICATE
CAMPUS: Park Lane
ENTRY: 3 GCSEs at grade 3 or equivalent. A keen interest in events and marketing. Successful interview.

Kick-start your career with a broad range of knowledge and experience in organising, running and marketing events.

You will work in a team to support the organisation of live events, such as writing press releases and helping create and distribute marketing material. You will develop a broad base of knowledge and experience planning and running live events, both internally and with external organisations.

COURSE THEMES
- Supporting the planning of a live event
- Supporting the organisation of a live event
- Producing publicity materials
- Supporting publicity activities
- Assisting in writing press releases

EVENT MANAGEMENT AND MARKETING LEVEL 3
DIPLOMA
CAMPUS: Park Lane
ENTRY: 5 GCSEs at grade 4 or equivalent, including either English or maths. A keen interest in event management and marketing. Successful interview.

Enhance your skills to progress on to employment, a higher level course or apprenticeship.

By broadening your knowledge and experience, you will be ready to pursue a career in these industries. You will organise live events from the planning stages right through to execution, and you will also have the opportunity to develop and manage your own event.

COURSE THEMES
- Understanding the events industry
- Understanding the role of marketing and advertising
- Practical skills required to manage an event
- Production and distribution of publicity to market an event
- Identifying funding streams
- Preparing and maintaining a budget
- Actions to reduce health and safety risks

English and maths will be built into your course if your grades are below 4

Visit leedscitycollege.ac.uk/enterprise
ENTERPRISE AND ENTREPRENEURSHIP LEVEL 3

EXTENDED DIPLOMA

CAMPUSES: Park Lane

ENTRY: 5 GCSEs at grade 4 or equivalent, including English or maths. A successful interview. A keen interest in enterprise and entrepreneurship.

Learn the skills needed to become a successful entrepreneur, and gain valuable practical experience of running a business!

You will get the chance to take the helm of your own enterprise, looking at a wide range of aspects from business and personal finance, survival and growth, and the principles of management. Gain experience of developing an enterprise strategy and feed this into your work both on the course and in the future.

COURSE THEMES

- Enterprise and entrepreneurs
- Launch and run an enterprise
- Business and personal finance
- Developing a marketing campaign
- Survival and growth
- Business decision making
- Principles of management
- Developing an enterprise strategy
WE ARE EVENT MANAGERS. PROJECT MANAGERS. SMALL BUSINESS OWNERS. ENTREPRENEURS.

EVENT MANAGER
Event managers are responsible for putting on a range of events. You would manage the whole process from planning right through to running the event itself.

To be an event manager you need to be outgoing, self-motivated. The role is very hands-on and you will need to work well as part of a team.

Some people choose to specialise in a certain type of event such as fundraising or music festivals.

ENTREPRENEUR
Mark Zuckerberg (Facebook), Alan Sugar (The Apprentice) and Richard Branson (Virgin) are all entrepreneurs. An entrepreneur often creates new ideas grown from their skills, interests or personal circumstances.

To be a successful entrepreneur you will need to be creative, decisive, passionate, good at multi-tasking and a risk taker. These skills, as well as many others, help when you are self-employed and want to succeed in business.

PROJECT MANAGER
A project manager is responsible for delivering projects on time and in budget. You will need to be skilled at planning and organising resources and people.

You will need to be confident in managing people and organised to track work and manage changes to plans.

You can work in a variety of areas such as construction, engineering, IT and marketing. Experience managing resources, costs and people will help you to get into project management.

OTHER CAREERS COULD INCLUDE:
COMMUNITY GROUP LEADER
CUSTOMER SERVICE ADVISER
HELP DESK OPERATIVE
RECEPTIONIST
CALL CENTRE ADVISER
CUSTOMER SERVICE OPERATOR

SUPPORTING TEACHING AND LEARNING LEVEL 2

CAMPUS: Quarry Hill

ENTRY: You will need a minimum of 4 GCSEs at grade 3 or above, including maths and/or English, or completion of a level 1 course.

This course has been designed to provide you with an understanding of the knowledge and skills needed when working directly with children and young people in school or college environments.

It covers a wide range of areas including children and young people’s development, positive behaviour, communication and professional relationships.

COURSE THEMES
- Understand schools and colleges as organisations
- Support the health and safety of children and young people
- Contribute to teamwork in a learning environment
- Understand children and young people’s play and leisure
- Provide displays in a learning environment
- Maintain relationships with children and young people

CHILDCARE AND EDUCATION LEVEL 3

CAMPUS: Quarry Hill

ENTRY: You will need 5 GCSEs with English and maths at grade 4 or higher, a higher diploma (which is equivalent to 7 GCSEs at grade 4-9), NVQ2, or level 2 certificate.

If you wish to explore a career working with children in early years or progress to university, then this course can offer both options.

It gives you the knowledge and understanding to further your study at university. It develops the wide ranging knowledge and skills needed when working with children and young people up to the age of seven.

COURSE THEMES
- Child development
- Play and learning
- Health and wellbeing
- Child health
- Understanding children’s additional needs
- Observation, assessment and planning

Jade France | Childcare
SUPPORTING TEACHING AND LEARNING LEVEL 3

CACHE CERTIFICATE

CAMPUS: Quarry Hill

ENTRY: 4 GCSEs grade 3/4 to ideally include maths and English grade 4 or above. Or a full childcare qualification at level 2.

Are you wanting to become a qualified teacher or assistant, working with children or young people in primary, secondary or schools for specialist support? This course will equip you with the knowledge and skills to do so.

You will learn about children and young people’s development, safeguarding their welfare, supporting literacy and numeracy and schools as organisations. A work placement in a relevant setting is built into this course.

COURSE THEMES
- Understand how to safeguard children and young people
- Develop professional relationships with children, young people and adults
- Understand how children and young people develop
- Support positive behaviour in children and young people
- Support children and young people during learning activities
- Support assessment for learning

Proud to be working in partnership with cache
WE ARE TEACHERS. EARLY YEARS EDUCATORS. MENTORS. PLAY WORKERS. NURSERY ASSISTANTS.

NURSERY ASSISTANT
As a nursery assistant you will care for children up to the age of five in day or residential nurseries and similar settings. You will work under the supervision of a practitioner and play a vital role in the children's learning journeys.

EARLY YEARS EDUCATOR (EYE)
As an early years educator you will work with children up to the age of five in a variety of settings. You will be responsible for observation, assessment and planning alongside meeting the needs of the children and families in your care.

PRIMARY / SECONDARY SCHOOL TEACHER
As a teacher you will develop schemes of work and lesson plans in line with curriculum objectives, whilst establishing relationships with pupils in the classroom environment.

HEALTH AND SOCIAL CARE
LEVEL 1

CAMPUS: Quarry Hill

ENTRY: A minimum of 4 GCSEs at grade 2-1 including maths or English, a foundation diploma (equivalent to 5 GCSEs at grades 2-1.) To work with children (under 18) or vulnerable adults, students will need to complete an enhanced disclosure check for the Disclosure and Barring Services.

This course is a mix of health, science and social care, and if you are passionate about people, then this course is the perfect introduction into a career that will broaden your opportunities.

Get practical and theoretical experience of working with adults and children. Understand the responsibilities of working as a professional in a caring environment. Taught by industry experts, you will gain an insight into the sector, whilst learning best practice.

COURSE THEMES
- Promoting healthy lifestyles
- Exploring local services
- Child development
- Work ethic and responsibility
- Skills for effective care
- Effective communication

PREPARING TO WORK IN ADULT SOCIAL CARE
LEVEL 2

CAMPUS: Quarry Hill

ENTRY: A minimum of 4 GCSEs at 3-2 including maths or English grade 3, a foundation diploma (equivalent to 5 GCSEs at grade 3). To work with children (under 18) or vulnerable adults, students will need to complete an enhanced disclosure check for the Disclosure and Barring Services.

This course will help you develop your knowledge and skills for the adult care sector and help you understand the principles of infection prevention and control, as well as dementia care.

COURSE THEMES
- Diversity, equality and inclusion
- Safeguarding and protection
- Duty of care
- The role of the social careworker
- Person-centred approaches
- Health and safety

English and maths will be built into your course if your grades are below 4

Visit leedscitycollege.ac.uk/health
HEALTH SCIENCE AND SOCIAL CARE LEVEL 2

CAMPUS: Quarry Hill

ENTRY: You will need 4 GCSEs at grade 3 including English and maths. We will also take into account prior experience and general suitability for working in this sector. To work with children (under 18) or vulnerable adults, students will need to complete an enhanced disclosure check for the Disclosure and Barring Services. The college will organise this for you but if your course is not fully funded a fee may apply.

Build your knowledge and skills while gaining the necessary qualifications needed to work in the care sector.

There are six in-depth and insightful main modules, which will cover a broad range of skills for working with adults, children and young people. You will also have the opportunity to further your knowledge of health and wellbeing, creative activities, or infection prevention and control as an extra area of study.

COURSE THEMES
- Communication
- Equality and diversity
- Safeguarding and protection
- Human growth and development
- Working in health and social care
- Mental health and wellbeing

HEALTH AND SOCIAL CARE LEVEL 3

CAMPUS: Quarry Hill

ENTRY: You will need 5 GCSEs at grade 4 or above including English and maths. Science at grade 4 is also encouraged if considering health/science routes. In order to work with children (under 18) or vulnerable adults, students will need to complete an enhanced disclosure check for the Disclosure and Barring Services. The college will organise this for you but if your course is not fully funded a fee may apply.

Are you passionate about people and want to make a difference? Why not study a course that offers industry standard skills and knowledge that you need to work in the care and education sector.

You will learn about effective communication and develop skills for dealing with complex issues including safeguarding, equality, diversity and rights in care. You will also be required to complete a substantial amount of work experience and assessments for this programme including coursework, externally marked assignments and an exam in year 2.

COURSE THEMES
- Infection prevention and control in health and social care
- Anatomy and physiology for health and social care
- Dementia awareness
- Complementary therapies
- Mental health and wellbeing
- Science of nutrition
- Psychology
- Sociology

“I AM NOW A QUALIFIED ADULT NURSE AND STILL IN TOUCH WITH SOME OF MY TUTORS. I ALSO FREQUENTLY VISIT COLLEGE TO SPEAK TO STUDENTS ABOUT MY EXPERIENCE AND OFFER ADVICE.”

Amanda Rodriguez | Health and Social Care
PREPARING TO WORK IN ADULT SOCIAL CARE LEVEL 3

CAMPUS: Quarry Hill

ENTRY: You will need 4 GCSEs at grade 4 or above including English and maths.

Working in adult social care can be a rewarding experience. This course will prepare you for the sector by developing your knowledge including duty of care, roles and responsibilities, and the skills you will need to succeed.

Through placement opportunities, you will gain experience in adult care settings. You will study an extra qualification in prevention and control of infection to support your professional progression.

COURSE THEMES

- Diversity, equality and inclusion
- Safeguarding and protection
- Duty of care
- The role of the health social care worker
- Person-centred approaches
- Health and safety
- Handling information
- Dementia awareness
- Supporting individuals with learning disabilities

We also offer additional qualifications in occupational studies and essential skills related to the health science and social care sector as part of internal progression between levels.

Visit leedscitycollege.ac.uk/health
WE ARE NURSES. CARE ASSISTANTS. SOCIAL WORKERS. CLINICAL SUPPORT WORKERS. PARAMEDICS.

NURSE
As a nurse you will provide general and/or specialised nursing care for the sick, injured and others in need of care, assist medical doctors with their tasks and work with other healthcare professionals.

SOCIAL WORKER
As a social worker you will provide information, advice and support to those who are socially excluded or are experiencing crisis.
You will protect the welfare of vulnerable groups including children, young people, people with disabilities, the elderly and people who are mentally or physically ill. You may specialise in specific areas of work.

PARAMEDIC
Paramedics have a highly responsible role, in emergency and non-emergency situations. You would be the senior ambulance service healthcare professional and the first to arrive at the scene.

CARE WORKER
As a care worker you will attend to the personal needs and comforts of the elderly and the infirm (‘service users’) with care and support needs within residential and day care establishments or in their own homes.

OTHER CAREERS COULD INCLUDE:
PARAMEDIC
HOME CARER
MEDICAL TECHNICIAN
MIDWIFE
OCUPATIONAL THERAPIST

PUBLIC SERVICES
LEVEL 1
CAMPUS: Quarry Hill
ENTRY: You will need 2 grade 2 GCSE qualifications to study this course. These need to be in English and maths. If you do not have these grades, do not worry. Please contact us and we can look into other alternatives we can offer in public services.

Are you interested in working in the emergency services or the armed forces? This course will focus on promoting positive attitudes through fun, challenging teamwork and fitness activities, while allowing you to demonstrate high levels of self-discipline that include attendance, punctuality and behaviour.

You will benefit from meeting people currently working in the emergency services and armed forces. In partnership with the West Yorkshire Police, you will also be able to interact with public service personnel and find out first-hand what it would be like to have a career in various sectors.

COURSE THEMES
- Forensic detection
- Security work
- Health and fitness
- Teamwork and leadership
- Emergency incidents

PUBLIC SERVICES
LEVEL 2
CAMPUS: Quarry Hill
ENTRY: A minimum of 2 GCSEs at grade 3 including English and maths.

Working with West Yorkshire Police, local fire services and armed forces, you will get first-hand experience of working in public services and what each sector entails.

You will have the opportunity to develop your teamwork and personal development skills, as well as build knowledge on why public service professionals exist.

COURSE THEMES
- Working in the emergency services and armed forces
- Skills for public service work
- Crime and its effects on society
- Health, fitness and lifestyle
- Teamwork in the public services
- Outdoor and adventurous activities
- Teamwork and personal development

English and maths will be built into your course if your grades are below 4

Visit leedscitycollege.ac.uk/publicservices
PUBLIC SERVICES
LEVEL 3

CAMPUS: Quarry Hill

ENTRY: A minimum of 2 GCSEs at grade 4 or above including English and maths or Public Services Diploma Level 2. If you do not have these grades contact us and we can find an alternative public services course.

This energy driven course will give you the opportunity to undertake riot training, outdoor pursuits and army assault courses. You will also get the chance to visit barracks and experience drop-ins from prison officers and dog handlers as part of your training.

You will develop your own leadership style, work with personnel currently serving in the public services sector and practice working in teams to solve problems and manage projects.

COURSE THEMES

- Teamwork and leadership
- Government and policy
- Fitness testing
- Crime and its effects on society
- War and terror
- Working in prisons and probation services
WE ARE POLICE OFFICERS. 
FIRE FIGHTERS. SOLDIERS. 
FIRST RESPONDERS. ROYAL MARINES.

FIRE FIGHTER
As a fire fighter you will co-ordinate and participate in fire fighting activities, provide emergency services in the event of accidents or bomb alerts and advise on fire prevention.

PRISON OFFICER
As a prison officer you will direct, co-ordinate and participate in guarding inmates and maintaining discipline in prisons and other detention centres.

BORDER FORCE OFFICER
As a border force officer you will inspect goods to ensure compliance with regulations concerning payment of duty and establish that persons entering and leaving the UK have necessary authorisation for crossing national borders.

OTHER CAREERS COULD INCLUDE:

SOLDIER
AMBULANCE TECHNICIAN
POLICE OFFICER
CALL HANDLER
POLICE SPECIAL CONSTABLE
ROYAL MARINE COMMANDO
DOG HANDLER
PARAMEDIC
SCENE OF CRIME OFFICER
PROBATION OFFICER

ANIMAL CARE
LEVEL 1

CAMPUS: Temple Newsam

ENTRY: 3 GCSEs at grade 1 or above, including English, maths and a science.

Based at Home Farm at Temple Newsam, this course is ideal if you are interested in a career working with animals.

This course introduces you to the main principles and practices of animal care and welfare. It gives you a broad introduction to the industry, from managing a pet shop or grooming dogs to caring for exotic animals.

COURSE THEMES
- Feeding and watering animals
- Preparation of animal accommodation
- Maintaining health and wellbeing of animals
- Handling and restraining animals
- Safe and effective working practices in land-based studies
- Animals in the wild and society

ANIMAL CARE
LEVEL 2

CAMPUS: Temple Newsam

ENTRY: 4 GCSEs at grade 3 or above including English, maths and a science, or successful completion of the level 1 programme of study.

Gain an understanding of the skills and knowledge that are essential for working with animals, or progressing on to further learning and training in this sector.

You will learn the fundamentals of animal health and welfare, behaviour and working in the animal care industry.

COURSE THEMES
- Maintain animal health and welfare
- Animal feeding and accommodation
- Animal behaviour and handling
- Working in the animal care industry
- Health and safety for land-based industries

English and maths will be built into your course if your grades are below 4

Visit leedscitycollege.ac.uk/animalscience
ANIMAL MANAGEMENT
LEVEL 3

CAMPUS: Temple Newsam

ENTRY: 5 GCSEs at grade 4 or above including English, maths and a science. Or a level 2 qualification with a Merit grade in a relevant subject.

Looking to start a career in the animal care industries? If so, this course is for you.

You will learn about animal behaviours, grooming, nutrition and welfare, giving you an advanced knowledge to thrive in this rewarding industry.

COURSE THEMES
- Practical animal husbandry
- Animal behaviour
- Animal health and diseases
- Work experience in the animal sector
- Investigative research project
- Practical skills in animal science
- Advanced animal nutrition
ZOOKEEPER
As a zookeeper, you are responsible for the welfare of animals kept in safari parks, zoos, petting farms, wildlife parks or other animal attractions open to the public. Usually you would specialise in working with one type of animal so that you can understand the animals in your care well and give them the best environment.

Although animal welfare is the main focus of the job, it will be important to teach the public about the animals within the zoo, so good people skills are needed.

RSPCA INSPECTOR
The role of being an RSPCA inspector is a hugely rewarding career where you can make a huge difference to the welfare of animals.

This role uses strong people skills as well as confidence with animals. The role can be both physical and practical and you will need to be comfortable working at height, up ladders or lifting and carrying equipment.

The RSPCA expects at least 5 GCSEs including maths and English.

VETERINARY NURSE
A veterinary nurse delivers medical care to animals and assists veterinary surgeons to promote animal health and welfare. A strong attention to detail is important as well as good communication skills and being able to stay calm in stressful situations such as emergency cases.

There are three different types of practice that you can work in; general, for vaccinations and health checks, referral, for specialist cases or emergency for delivering urgent care.

To become a veterinary nurse you will need to have a qualification which is accredited by the Royal College of Veterinary Surgeons (RCVS).

OTHER CAREERS COULD INCLUDE:
ZOOKEEPER
ZOOLOGIST
RSPCA INSPECTOR
VETERINARY NURSE
ANIMAL HANDLER
DOG HANDLER
"THIS COURSE IS SO EXCITING. GETTING HANDS-ON WORK WITH ANIMALS AND LEARNING SOMETHING NEW EVERY DAY.

I WOULD RECOMMEND THE COURSE TO ANYONE WHO LOVES ANIMALS."

INTRODUCTION TO SPORT
LEVEL 1

CAMPUS: Park Lane

ENTRY: Students wishing to enrol on to a level 1 programme will come with a range of qualifications which could include GCSEs, units of qualifications already taken or have few or none.

Are you passionate about sports and can see yourself making a career out of it? This course is an amazing introduction to turning what you love into a job.

With a mixture of practical and theoretical units, it aims to develop your readiness for work. It will improve your knowledge and understanding of sport, as well as your personal and social confidence.

COURSE THEMES
- Organising a sports event
- Training for fitness
- Coaching sport
- Being organised in sport
- Developing a personal progression plan

FITNESS INSTRUCTING
LEVEL 2

CAMPUS: Park Lane

ENTRY: A minimum of 4 GCSEs at grade 3 including English and/or ideally maths or equivalent (eg Functional Skills Level 1). Or satisfactory completion of a foundation learning programme at Level 1 with a minimum of 37 credits.

Do you have a passion for helping people? enjoy creating meal plans and delivering safe and effective fitness instruction? If so, this course is for you!

After successfully completing this qualification, you will be able to gain access to the Register of Exercise Professionals (REPs) at level 2.

COURSE THEMES
- Anatomy and physiology for exercise
- How to support clients who take part in exercise and physical activity
- Health, safety and welfare in a fitness environment
- Principles of exercise, fitness and health
- Planning gym-based exercise
- Nutrition for health and performance

English and maths will be built into your course if your grades are below 4

Visit leedscitycollege.ac.uk/sport
SPORT COACHING (FOOTBALL)
LEVEL 2

CAMPUS: Park Lane

ENTRY: A minimum of 4 GCSEs at grade 3 including English and/or ideally maths or equivalent (eg Functional Skills Level 1). Or satisfactory completion of a foundation learning programme at level 1 with a minimum of 37 credits.

Are you interested in coaching football to students, adults and communities? This course will provide you with a mixture of practical and theoretical units, as well as work experience, where you will go out on placement in schools and clubs. There will be a number of field trips including an optional residential.

You will also have extensive periods of coaching football with professional organisations and an opportunity to gain work experience in Europe and/or the United States.

COURSE THEMES
- Support the work of your team and organisation
- Leading activity sessions
- Promote health, safety and welfare in active leisure and recreation
- Support equality and diversity in active leisure and recreation
- Enable disabled people to take part in activities

SUPPORTING LEARNING IN PHYSICAL EDUCATION AND SCHOOL SPORT
LEVEL 2

CAMPUS: Park Lane

ENTRY: A minimum of 4 GCSEs at grade 3 including English and/or ideally maths or equivalent (eg Functional Skills Level 1). Or satisfactory completion of a foundation learning programme at level 1 with a minimum of 37 credits.

Are you passionate about sport and love teaching? This course aims to provide you with an introduction to a number of roles through an engagement with Physical Education and School Sport (PESS), including teaching, activity leadership and coaching for young people.

The course will provide you with guidance on how to contribute to PESS programmes as a sports leader, coach and teaching assistant.

COURSE THEMES
- Understanding key legislation related to physical education and school sport
- Principles of teaching physical education and coaching school sport
- Promoting lifelong health and wellbeing
- Principles of inclusion in physical education and school sport
- Leading physical education and school sport activities

English and maths will be built into your course if your grades are below 4

Visit leedscitycollege.ac.uk/sport
PERSONAL TRAINING
LEVEL 3

CAMPUS: Park Lane

ENTRY: A minimum of 4 GCSEs at grade 3 including English and/or ideally maths or equivalent (eg Functional Skills Level 1).

Following on from the Fitness Instructing Level 2 course, you will develop your skills in personal training further and pursue a job within the industry.

Once you successfully complete this course, you will be able to gain access to the Register of Exercise Professionals (REPs) at level 3 and enter the world of personal training. This is also a hybrid course and can be combined with the fitness instructing course.

COURSE THEMES
- Support clients who take part in exercise and physical activity
- Health, safety and welfare in a fitness environment
- Principles of exercise, fitness and health
- Anatomy and physiology for exercise and health
- Delivering personal training sessions
- National activity planning

SPORT AND EXERCISE SCIENCE
LEVEL 3

CAMPUS: Park Lane

ENTRY: English and maths at grade 4 or above and 3 other grades including science. A level 2 diploma at Merit grade with English and maths at minimum grade 4.

Do you have an equal passion for sport as you do science? This course is centred on you developing practical skills needed for a scientific or medical career in sport.

Focusing on applied sport science, it will develop your testing and research skills for you to successfully progress on to university for further study.

COURSE THEMES
- Functional activity
- Applied sports and exercise psychology
- Applied research methods in sport and exercise science
- Coaching for performance and fitness
- Specialised fitness training
- Physical activity for individual and group-based exercise

Our partnerships mean you will experience working with professionals, to hone your skills and take you to the next level.
SPORTS THERAPY, COACHING/TEACHING, FITNESS AND LEISURE LEVEL 3

CAMPUS: Park Lane

ENTRY: English or maths at grade 4 or above, and 3 other grades including science at either 4 or above. 2 A levels or a level 2 diploma at Merit grade with English and maths at minimum grade 4.

Experience the different pathways in sport, including sports therapy, coaching, teaching and performance.

In your second year you will focus on your preferred area. This allows you to specialise before progressing into employment or on to a higher education programme.

COURSE THEMES
- Anatomy and physiology
- Fitness training for health, sport and wellbeing
- Professional development
- Sports leadership
- Skills acquisition in sport
- Business in sport
- Specific chosen units dependent on the sporting area you wish to go into

SUPPORTING THE DELIVERY OF PHYSICAL EDUCATION AND SCHOOL SPORT LEVEL 3

CAMPUS: Park Lane

ENTRY: A minimum of 5 GCSEs at grade 4 or above including maths and English or equivalent (Functional Skills Level 2), a higher diploma (which is equivalent to 7 GCSEs at grades 9-4), NVQ2 or level 2 diploma at Merit grade with maths and English at minimum grade 4 or equivalent (Functional Skills Level 2).

Do you have a keen interest in becoming a teacher, sports coach or leader? This course will give you the opportunity to do just that in various settings.

You will gain a mix of theory and practice in this course, making you employment ready. It also includes a placement in a school setting. Support will be given to find one if required.

COURSE THEMES
- Understand child and young person development
- Support assessment for learning
- Plan, deliver and review a physical education and school sport programme
- Organise and lead a sports event or competition
- Support gifted and talented learners
- Facilitate community-based sport and physical activity
WE ARE ATHLETES.
COACHES. PERSONAL TRAINERS.
PHYSIOTHERAPISTS.

PROFESSIONAL SPORTS PLAYER
As a professional sports player, you will train and compete, either individually or as part of a team in your chosen sporting area.

FITNESS INSTRUCTOR/PERSONAL TRAINER
As a fitness instructor or personal trainer you will deliver training in a range of fitness activities, including weight training, yoga, pilates and other forms of exercise. This could be at private health and fitness centres, local authority-run sports and leisure centres, other public and community establishments, and in private homes.

PHYSIOTHERAPIST
As a physiotherapist you will plan and apply massages, promote and encourage movement and exercise, use hydrotherapy, electrotherapy and other technological equipment in the treatment of a wide range of injuries, diseases and disabilities in order to assist rehabilitation.

OTHER CAREERS COULD INCLUDE:

SPORTS COACH
PHYSICAL EDUCATION TEACHER
SPORTS MASSAGE THERAPIST
LEISURE CENTRE MANAGER
OUTDOOR RECREATIONAL ACTIVITY LEADER
SPORTS DEVELOPMENT OFFICER
SPORTS ADMINISTRATOR

High earning job roles include sport and exercise psychologists (£42,000) and sports and leisure managers (£34,000)

HOSPITALITY AND CATERING
ENTRY 3

CAMPUS: Printworks
ENTRY: You will be assessed throughout the year via written assignments as well as regular practical sessions.

This course is perfect for you if you're starting out and want a good basic understanding of the industry - you may still be at school and preparing for GCSEs or an apprenticeship. This qualification can help you with ongoing study or to find your first job in hospitality.

COURSE THEMES
- Customer/guest service
- Serving food and drink
- Healthy eating
- Using kitchen equipment
- Basic food preparation
- Front office operation

HOSPITALITY AND CATERING
LEVEL 1

CAMPUS: Printworks
ENTRY: No formal entry qualifications are required, however a good level of written and spoken English skills are essential, along with a commitment to succeed.

Would you like to pursue a career in the food industry? This course will give you an introduction to the sector and provide you with opportunities to learn a wide range of skills.

You will learn about the catering industry and cover basic cookery, patisserie, bakery and butchery skills. You will be taught about the essentials of food safety and hygiene, preparing you for further study or employment.

COURSE THEMES
- Introduction to working in the food industry
- Developing skills in professional cookery and butchery
- Developing skills in bakery, patisserie and cake decoration
- Food safety and hygiene
- Team working and employability skills

Our industry standard kitchens mean that you will develop your culinary skills to deliver a first class service.
PROFESSIONAL BAKERY
LEVEL 2

CAMPUS: Printworks

ENTRY: No previous qualifications are required. If you do not have a grade 4 or above in English and maths, you will need to undertake an assessment so that we can ensure you receive the appropriate support for that subject. All applicants will need to attend an interview and practical session.

Develop your practical bakery skills to an intermediate level, learning a wide range of techniques in our industry standard facilities.

You will learn essential bakery skills such as mixing, processing, baking, finishing and presenting bakery products. The skills you will develop producing bread, pastry, flour confectionery and cake decoration will support your progression on to further study or employment.

COURSE THEMES
- Develop essential theoretical and practical bakery skills
- Understanding baking processes
- Skills in flour confectionery, making cake and sponge products
- Chocolate craft
- Cake decoration

PROFESSIONAL COOKERY
LEVEL 2

CAMPUS: Printworks

ENTRY: No formal qualifications are required however a strong interest in working as a chef within the hospitality industry and a basic level of spoken and written English and maths is a must.

This course will equip you with a basic understanding of food preparation, cooking and presentation to a professional standard required in the hospitality industry.

It will involve practical and theoretical approaches and you will take part in local events and work placements to get a true flavour of the industry.

COURSE THEMES
- Introduction to the catering and hospitality industry
- Health, safety and food hygiene awareness
- Introduction to kitchen equipment
- Introduction to workplace skills
- Preparation and cookery using a range of methods

English and maths will be built into your course if your grades are below 4

Visit leedscitycollege.ac.uk/travel
PROFESSIONAL FOOD AND BEVERAGE SERVICE LEVEL 2

CAMPUS: Printworks

ENTRY: 3 GCSEs at grade 3 or above. You may have to study English and maths alongside this course if you do not have the required grades.

Do you love going above and beyond when it comes to customer service? This course will teach you the skills needed to pursue a career in the food and drink industry.

It gives you an introduction to this fast paced and exciting sector, with regular work experience opportunities in hotels, restaurants and bars to prepare you for your next steps.

COURSE THEMES
- Principles and provision of customer service
- Food and beverage service skills
- Barista skills
- Alcoholic beverage knowledge and service
- Menu and product knowledge
- Health and safety
- Food hygiene

PROFESSIONAL PATISSERIE AND CONFECTIONERY LEVEL 2

CAMPUS: Printworks

ENTRY: A level 1 qualification in a related subject. Or a minimum of 2 GCSEs at grade 4 or above including English and maths.

Do you want to pursue a career as a specialist in the area of patisserie and confectionery? This course will give you the professional skills you need, to progress on to a higher level course or employment.

As well as the practical skills you will develop, you will learn about the industry and build up employability skills, complemented with external local work placements.

COURSE THEMES
- Hot and cold desserts
- Biscuits, cake and sponge products
- Fermented dough products
- Pastry products
- Basic chocolate and confectionery skills
- Food safety
- Health and safety
- Nutrition
ADVANCED PROFESSIONAL COOKERY LEVEL 3

CAMPUS: Printworks

ENTRY: You will need to have successfully completed a professional cookery level 2 course.

Take your professional cookery skills a step further and develop your skills learnt at level 2.

You will be working at senior commis or chef de partie level, exploring gastronomy and understanding the principles of food safety and supervisory skills in the hospitality industry.

COURSE THEMES
- Producing vegetable and vegetarian dishes
- Producing meat dishes
- Producing poultry and game dishes
- Producing fish and shellfish dishes
- Producing dough and batter dishes
- Producing paste products

PROFESSIONAL COOKERY LEVEL 3

CAMPUS: Printworks

ENTRY: You will need to have successfully completed the Professional Cookery Diploma Level 2 to enrol on to this programme.

Gain a deeper understanding of the high standards expected in the industry, including developing your skills in food preparation, cooking and presentation.

The course will give you a practical and theoretical approach, including experience working at local events and training in real restaurant environments.

COURSE THEMES
- Prepare, cook and finish meat, poultry, fish and vegetables for complex dishes
- Prepare, cook and finish complex hot sauces, soups, pasta, dressings and cold sauces
- Health and safety
- Food hygiene
- HACCP (Hazard Analysis and Critical Control Point)
- HR and employee/employer relationships

English and maths will be built into your course if your grades are below 4

Visit leedscitycollege.ac.uk/travel
PROFESSIONAL PATISSERIE AND CONFECTIONERY LEVEL 3

CAMPUS: Printworks

ENTRY: Professional Patisserie and Confectionery Certificate Level 2 or relevant level 2 qualification e.g. Professional Cookery Diploma/Certificate Level 2 or Bakery Level 2. Relevant industry experience will be taken into consideration.

Do you want a career in the specialist area of patisserie and confectionery at a higher professional level?

On this course, you will develop supervisory skills to prepare you for senior positions within the industry. You will get opportunities to enhance your learning with trips, masterclasses, work placements and visits from guest speakers, who are professionals in the industry.

COURSE THEMES
- Hot, cold and frozen dessert
- Biscuits, cake and sponge products
- Batter and fermented dough products
- Petits fours
- Pastry products
- Display pieces

PROFESSIONAL FOOD AND BEVERAGE SERVICE LEVEL 3

CAMPUS: Printworks

ENTRY: Food and beverage level 2 qualification or prior experience within the food and drink service industry. You may have to study English and maths alongside this course if you do not have the required grades.

Are you a natural leader? Confident in supporting and coaching others to deliver exceptional service? This course will develop your leadership skills so that you can supervise teams within the food and drink industry.

As part of the course, you will undertake work experience in hotels, bars and restaurants, to prepare you for further study or employment in the industry.

COURSE THEMES
- Hospitality service supervision
- Leadership and team development
- Hospitality service business operations
- Principles of beverage service
- Gastronomy and the dining experience
- Planning and delivering events
- Supervision of food safety
- Health and safety
"THE TRAINING FOR FRONT AND BACK OF HOUSE IS AMAZING, AND MADE OUR CHOICE TO EMPLOY APPRENTICES AN EASY ONE.

WE FEEL THAT WITH THE CONSTANT COMMITMENT TO WORK WITH LOCAL BUSINESS, THAT THIS WILL BE A LONG AND FRUITFUL RELATIONSHIP."

MARK OWENS | CHEF AT HOME RESTAURANT
WE ARE CHEFS. BAKERS. BUTCHERS. MIXOLOGISTS. CABIN CREW. HOTEL MANAGERS.

- Adventure tourism
- European tourism
- The cruise industry

Supplement your skills and knowledge, and put your course theory into practice with our wealth of work experience opportunities.
"I WENT TO GREECE ON AN INTERNATIONAL WORK PLACEMENT AND THOROUGHLY ENJOYED IT.

I LEARNT WHAT IT IS LIKE TO LIVE AND WORK ABROAD, AND THIS HELPED INFLUENCE MY DECISION ABOUT WHAT JOB I WOULD LIKE IN THE FUTURE."

SOPHIE APPLEYARD | TRAVEL & TOURISM
THE FOUNDRY

The Foundry is our brand new learning space for our Alternative Provision, including pre and post 16 SEMH (social, emotional and mental health), school partnerships, Progression Studies and The Prince’s Trust. Located on Leathley Road, just a stone’s throw away from our Printworks Campus, the building boasts dedicated vocational areas, state-of-the-art technology, a new canteen and communal study space.

Learners are also able to access vocational facilities at Printworks and participate in work experience and community projects to broaden their experience beyond the campus. This creates opportunities for developing wider skills including enterprise, teambuilding, leadership, communication and other key employability and life skills.
THE PRINCE’S TRUST TEAM PROGRAMME

CAMPUS: The Foundry

Are you aged 16–25 and looking to develop vital skills that you will need to get into employment, further education or training? The Prince’s Trust, TEAM Challenge is a 12-week, full-time course that offers you fantastic opportunities.

You will take part in a residential, work placement and a community project - all building confidence and team work skills. You will also develop skills in creating personal goals, interview techniques, writing a CV and delivering team presentations.

This course will give you lots of valuable skills and experiences to help with job applications. You will gain either Entry Level 3, Level 1 or Level 2 in Employment, Teamwork and Community Skills, dependent upon your level.

COURSE THEMES:
- Team residential trip
- Plan and fundraise for your own group project
- Two-week work placement
- CV building and progression support

PROGRESSION STUDIES

CAMPUS: The Foundry

If you are unsure about what you would like to do in your future or need support to help make those decisions, then this course can help you do so on a pathway.

This full-time course can help you decide on your next steps, whether you choose to study towards a vocation, a higher level of study or progress into employment. As part of the course you will work towards individual goals and targets, and will be given a personalised programme with support to enable progression. You will complete a work placement and have the chance to improve your personal and social skills in areas such as teamwork and confidence building.

COURSE THEMES:
- Personal confidence
- Effective communication
- Work placement
- Vocational qualifications including BTEC
- English and maths GCSE, to support progression
- Science

English and maths is built into the progression studies course. There are no formal entry requirements.

Visit leedscitycollege.ac.uk/progression
"I LEARNT A LOT, DEVELOPED MY SKILLS AND I NOW HAVE MORE CONFIDENCE BEING IN COLLEGE AND ATTENDING MY NEW COURSE.

THE SUPPORT I RECEIVED HELPED ME TO FIND SOMETHING TO SUIT MY NEEDS."

DAN MCCALL | PROGRESSION STUDIES
14-16 ALTERNATIVE PROVISION & SCHOOL PARTNERSHIPS

Leeds City College has a successful history of working in partnership with schools, including the city’s Specialist Inclusive Learning Centres to provide a range of programmes to support, engage and progress 14-16 year old students.

The outcomes for our students are excellent, with preparation for a vocational course pathway at the heart of everything we provide. The department has outstanding year-on-year progression rates for students continuing on to further education, employment and training post-16.

School Partnerships
These are one day per week accredited vocational courses for year 10 and 11 students in a range of curriculum areas including hair and beauty, hospitality, catering and travel and tourism.

Specialist Inclusive Learning Centre Links (14-19yr olds)
These are one day per week vocational courses for students with moderate to severe learning difficulties either on an unaccredited carousel or year-long accredited programme of study.

Alternative Provision
This is full-time provision for year 10 and 11 students including specialist SEMH. Programmes of study focus on maths and English but are personalised and include vocational tasters to give students experiences to inform their post-16 pathways.

Elected Home Educated
This provision is for up to 15 hours a week to access vocational courses for years 10 and 11 students.

Courses are planned in collaboration with local high schools. You can find more details on our website leedscitycollege.ac.uk/schoolpartnerships.
"THE ACADEMY IS HOME. WE ARE NOT SINGLED OUT, WE ARE EQUALS, WE ARE ALL ACCEPTED AND IT IS OUR SAFE PLACE."

MEGAN JORDAN | 14+ APPRENTICESHIP ACADEMY
14+ APPRENTICESHIP ACADEMY

The 14+ Apprenticeship Academy offers an outstanding provision and delivers both a stimulating educational environment and an inclusive, welcoming and supportive community for 14 and 15 year olds.

With a strong focus on developing real world and employability skills, the academy delivers close pastoral support and strong communication with parents and carers.

Smaller class sizes
With a class size of no more than 20, our team can understand the needs and learning styles of individual learners with many classes containing two qualified members of staff.

Excellent progress
We secure a 98% academic pass rate for our learners.

Outstanding external reviews
The strength of our provision is recognised and a recent assessment of our practice by Ofsted graded us “Outstanding” stating “students thrive in the highly supportive college environment and make outstanding progress.”

Strong parent partnerships
The academy prides itself on its supportive relationship with parents and carers. We place engagement with the learners’ homes at the heart of our work.

Outstanding outcomes
100% of our learners progress successfully on to post 16 education or training across a range of provisions. Whether a learner aims for A levels, vocational options or an apprenticeship, we do all we can to secure them the right course to achieve their future goals.

Innovative use of learning technology
Through our partnership with Google and equipping staff with the latest technological knowledge, our learners develop skills in a modern, interactive environment.

Contact us on 0113 284 6493, email apprenticeshipacademy@leedscitycollege.ac.uk

Come and visit us at one of our open events: leedscitycollege.ac.uk/events
FOUNDATION STUDIES

Foundation Studies incorporates a bespoke curriculum that promotes independent living, community inclusion, health and wellbeing and employment opportunities.

Awarded an Ofsted grade of Outstanding, each course has a progressive and differentiated curriculum to meet individual student needs. The course is suited to those who have a mild to moderate learning disability and / or who need support with managing emotions and behaviour.
Our courses are highly personalised and are designed to support progression. These courses might be suitable if you have few or no formal qualifications.

Visit leedscitycollege.ac.uk/foundationstudies

SUPPORTED INTERNSHIPS

CAMPUS: Joseph Priestley Centre, Beeston

Students will work with external companies and large organisations such as KPMG and National Express and will be supported by our expert team of job coaches.

For students who are not ready for a full supported internship course, we offer a pre-internship programme. These students would still get the opportunity to gain valuable work experience within the college such as catering, ground maintenance, gardening, receptions and the students’ union.

COURSE THEMES

- Two-four days per week at a work placement
- Develop confidence in an organisational setting
- Develop work-based skills

INDEPENDENCE AND LIFE SKILLS

CAMPUS: Joseph Priestley Centre, Beeston

This course is designed for students who have learning difficulties and disabilities. It aims to develop students' lives and independent living skills, empowering them to function as independently as possible whilst embracing individual needs. Predominantly based at our Joseph Priestley Campus, students get to learn in our flat with kitchen facilities as well as using the college-run house located in the community.

Students on this course will keep a portfolio of their work and achievements which can lead to certification where appropriate.

COURSE THEMES

- Personal and social development
- Communication skills
- Practical maths and English
- Accessing the community
- Personal presentation and hygiene
- Personal and social development
- Using computers
- Sport and social activities
- Enrichment, hobbies and interests
SUPPORTED EMPLOYMENT AND PREPARATION FOR WORK

CAMPUS: Joseph Priestley Centre, Beeston

This course is designed for students who have learning difficulties and disabilities. It aims to boost life and independence skills whilst also developing skills for work. The pathway includes aspects of independent living, community living and working with others. Students will work with real local businesses to gain experience.

Students develop their English and maths, as well as computer skills and knowledge to help them later on in life. They will keep a portfolio of their work and achievements and will be able to complete a certification where appropriate.

COURSE THEMES

- Producing products to sell
- Working in a sales environment
- Taking part in running a small business such as a café
- General administration duties
- Health and safety
- Personal progression
- Catering skills
- Horticulture skills

VINE

CAMPUS: The Vine

Vine at Queenswood Education Centre provides personalised learning programmes to meet the needs of learners with severe and complex learning difficulties. Learning programmes are created around the individual learner’s EHC* outcomes alongside the development of life skills, communication and independence.

We understand that all learners’ skills and needs vary and recognise that it is likely that Vine learners will need a high level of support throughout their lives. We support each learner to reach their potential and encourage them to be as independent as they can be as they prepare for adulthood.

COURSE THEMES

- Cooking, shopping and household tasks
- Creative activities
- Enterprise activities
- Personal and social development
- Practical maths and English
- Using public transport
- Using computers
- Using money and managing personal budgets

*Education Health and Care (EHC) plan. Your local authority can carry out these assessments if they are not already in place, search EHC at leeds.gov.uk for more information.
"THE INTERNSHIP PROGRAMME HAS BEEN A REAL SUCCESS. STAFF ARE REALLY LOOKING FORWARD TO THE INTERNS JOINING THEIR TEAMS."

JODY | YORKSHIRE WATER
There are lots of services available at college to improve your student experience, ensuring you have the best time.

Over the next few pages, you will meet different students who will tell you about their time at college and the support they have received.

**HAVE FUN AND TRY NEW THINGS!**

Hi I’m Romana the *Debating Society President*, a *course representative* and member of the *Islamic Society, Raise and Give Society, LCCSU committee* and *Duke of Edinburgh award*. I’m also the *Black and Ethnic Minorities Officer*.

“Having all of these roles has filled me with confidence. The things that I have managed to achieve has resulted in me believing in myself more and made me realise what I’m capable of. They have also allowed me to gain valuable leadership skills.”

“I would advise you to get involved with the SU and find out about trips, events and societies. These help you grow as individuals and enable you to do more of what you are passionate about.”
Hi I'm Sakib I play **table tennis** and I'm part of the **Board Games Society**, **student leadership team** and **Duke of Edinburgh award**.

“Being part of these activities has increased my confidence in leading sessions. It has exposed me to different cultures and people who I wouldn’t have normally spoken to.”

“Getting involved and having things to write about played a massive role in securing me a place at university through my UCAS application’s personal statement.”

**HAVE FUN AND TRY NEW THINGS!**

**MORE INFO AT LCCSU.CO.UK**
Hi I’m Mahmud Mahmud, I’m the Disabled Students Executive Officer at LCCSU. I campaign for equality, and I want to improve overall student experience.

“I’m currently on a placement and I’d recommend getting some work experience during your time at the college too. It’s given me a much better understanding of what it’s like to work in a real life situation, and improved my confidence massively.

It has really improved my communication skills, I find it easier to talk to people, and feel like I’m improving and learning new skills all the time.”

Our Careers Advisers are here to help you with applying for work, university or an apprenticeship, or just to help you work out your interests and what you would like to do in the future.

Work experience and volunteering are a great way to add new skills to your CV, and we offer lots of great opportunities both in this country and abroad!

Speak to your tutor for more information or check out the information boards around campus.
Hi, I’m Salman Daji, the Students’ Union Deputy President. I work with students for activities, campaigns and get feedback about any improvements we can make to the college.

“The main focus of the students’ union is to make sure that students’ voices are heard; we’re run by students for students to make changes happen.

Part of my role as Deputy President is to help students who have ideas or need support and want someone to talk to. I have drop-in sessions, and there’s also a professional team that can help with issues such as mental health.

Some students need support with student funds (I’ve received that help myself). Whether it’s travel, meal vouchers or anything else, all the staff here are very supportive, friendly and want to help students.”

At college there are lots of ways we can support you with course related costs, like travel passes, free lunches, college equipment, uniforms and more.

To apply for extra support and to find out more, either visit leedscitycollege.ac.uk/extrasupport or speak to a member of staff.
SAFEGUARDING
We are committed to doing everything we can to make sure all of our students and staff are kept safe and protected from harm. All our staff are trained in safeguarding and child protection and we have clear procedures in place. Our dedicated safeguarding team are on hand to offer advice and support.

PREVENT
Prevent is about safeguarding people and communities from the threat of terrorism and is part of the government’s overall counter-terrorism strategy, CONTEST. It aims to stop people becoming terrorists or supporting terrorism. We aim to prevent people from being drawn into all forms of extremism. One of our key priorities is keeping our students safe; so we educate and raise awareness about issues that could endanger or cause harm.

BRITISH VALUES
As a college we believe in and promote what are known as British values. We expect all our students to uphold these values too.

These values are:
• Democracy
• The rule of law
• Individual liberty
• Mutual respect and tolerance for those with different faiths and beliefs

MENTAL HEALTH AND SUPPORT
Any student feeling worried or anxious about something can access help. We have specialist counselling and mental health officers who are able to offer guidance and direct students to the relevant support services.

For more information and tips on mental health, visit:

www.mindmate.org.uk

For help and advice for young people in Leeds, their carers and professionals visit:

www.mindwell-leeds.org.uk

HELP AND GUIDANCE
Students can talk to any member of staff or click the ‘REPORT IT’ button on the student intranet about any safeguarding concerns.

More information and advice about keeping children and young people safe is available at parentinfo.org

Abuse can be reported online directly to CEOP or a local police force at ceop.police.uk/ceop-reporting/

Our safeguarding has been judged as effective by Ofsted. If you want to learn more about Prevent and safeguarding or read our safeguarding children and vulnerable adults policy, visit the college website leedscitycollege.ac.uk/safeguarding
Getting to college couldn’t be easier!

Wherever you live in Leeds or surrounding areas, there are easy and accessible public transport routes to our campuses.

If you live in east Leeds, you can get the number 4 and 16 buses to the city centre.

From the north and south Leeds areas, bus numbers 2, 3, 12 and 13 go to the city centre and stop by Printworks Campus.

Our Quarry Hill Campus is conveniently located just a few minutes’ walk away from the bus station.

For more information on bus routes and timetables, visit wysmetro.com

If you’re travelling by train, head to trainline.com for details and times.
The School Liaison team at Leeds City College work in partnership with schools, colleges and education providers across Yorkshire to provide a variety of information and activities for students to discover their post-16 options.

If you’re a school or provider in the local authority area, the team would love to work with you to support with:

Careers fairs | Parents’ evenings | Bespoke transition talks | Assemblies | Curriculum experience sessions | Taster days | Campus tours | Progression workshops

We can provide information on each of the college’s subject areas, along with updates on the range of courses, apprenticeships, and the choice of career options available to prospective students.

The team help break down barriers to learning and offer current labour market information to enhance student progression.

Each event and activity can be tailored to meet your students’ needs.

If you are a member of staff in school please contact transitionteam@leedscitycollege.ac.uk to discuss your requirements. For bookings and more information visit leedscitycollege.ac.uk/school-liaison-team

Follow us on twitter and instagram to keep up to date!
ENGLISH FOR SPEAKERS OF OTHER LANGUAGES (ESOL)

Award winning, with an Ofsted rating of outstanding, our English for speakers of other languages (ESOL) provision has one of the highest achievement rates in the UK.

We have a dedicated team of English language teachers who are committed to giving every student the best quality learning experience.

In 2017, we were named FE team of the year by the prestigious Pearson Teaching Awards.

We strongly believe that teachers who love teaching inspire students to love learning.

Call 0113 386 1997 or visit leedscitycollege.ac.uk/esol to study with us.
Open doors you thought were closed with an Access Foundation course.

If you’d like to change your career, progress in your current role or look at higher levels of study, but don’t have the qualifications you need, then a GCSE access foundation course could be the step you need to move forward.

You will work towards gaining good passes in five GCSE qualifications, including English Language, Mathematics and Science enabling your progression in employment or on to higher levels of study.

This course can be studied on a full-time or part-time basis. For more information visit leedscitycollege.ac.uk/accessfoundation or call us on 0113 386 1997.

Make university a possibility with an Access to HE course.

Have you considered studying at university but don’t yet have the right qualifications or the grades to get you there?

An Access to HE course gives you the opportunity to study at university regardless of your previous education. Access to HE has no upper age limit and most require few, if any prior qualifications.

If you go on to complete a degree, you won’t have to pay your Access fees back.

We have Access courses available in the following areas:

- business
- computer science
- education professions
- engineering
- health science professions
- humanities and social sciences
- law
- science and sport

For more information visit our website leedscitycollege.ac.uk/access or if you have any questions call us on 0113 386 1997.
GET A JOB NOW WHILST GAINING A QUALIFICATION AT THE SAME TIME!

Apprenticeships are work-based training programmes, combining employment and a qualification, meaning you’ll get the opportunity to develop your skills through a mixture of practical work experience and studying at college!

You can gain better progression opportunities, potentially benefit from higher wages long-term and you can start working straight away.

Apprenticeships are available at intermediate, advanced and higher levels - which means you can even achieve a degree through apprenticeships! It’s a great alternative to university.

Call: 0113 284 6464

Email: apprenticeships@leedscitycollege.ac.uk

Visit: leedscitycollege.ac.uk/apprenticeships
Leeds City College Star Awards recognise and celebrate the incredible success and achievements of our students every year, often against extreme adversity.

Among the rewarded students was Georgia Moore, who came to the college’s 14+ Apprenticeship Academy after being bullied at her school. She was acknowledged for her excellent work ethic, sensible influence on fellow students and regaining her confidence.

Of many deserving nominees, childcare student, Tanaya Benoni won the Principal’s Award for Overcoming Adversity. In 2017, Tanaya was diagnosed with cancer and began chemotherapy but despite this, she relentlessly persevered with her education. She is now in remission and on track for achieving her diploma.

Hosted by Capital FM’s Adam and JoJo, who added a bit of ‘sparkle and pizzazz’, the evening was a heart-warming night of student celebration, with entertainment provided by our Creative Arts students and more.

MAKE SURE YOU ARE A PART OF IT NEXT YEAR!
WANT TO GAIN A DEGREE BUT HAVE BEEN OUT OF EDUCATION FOR A WHILE?

Need education to fit around your lifestyle?

We provide a learning environment designed to suit your individual needs, enhance your knowledge and help you fulfil your ambitions.

If you're interested in finding out more, please visit ucleeds.ac.uk, email admissions@ucleeds.ac.uk or call 0113 216 2406.
